Individuals trying to achieve a goal
Never the same, each idea unique . . .

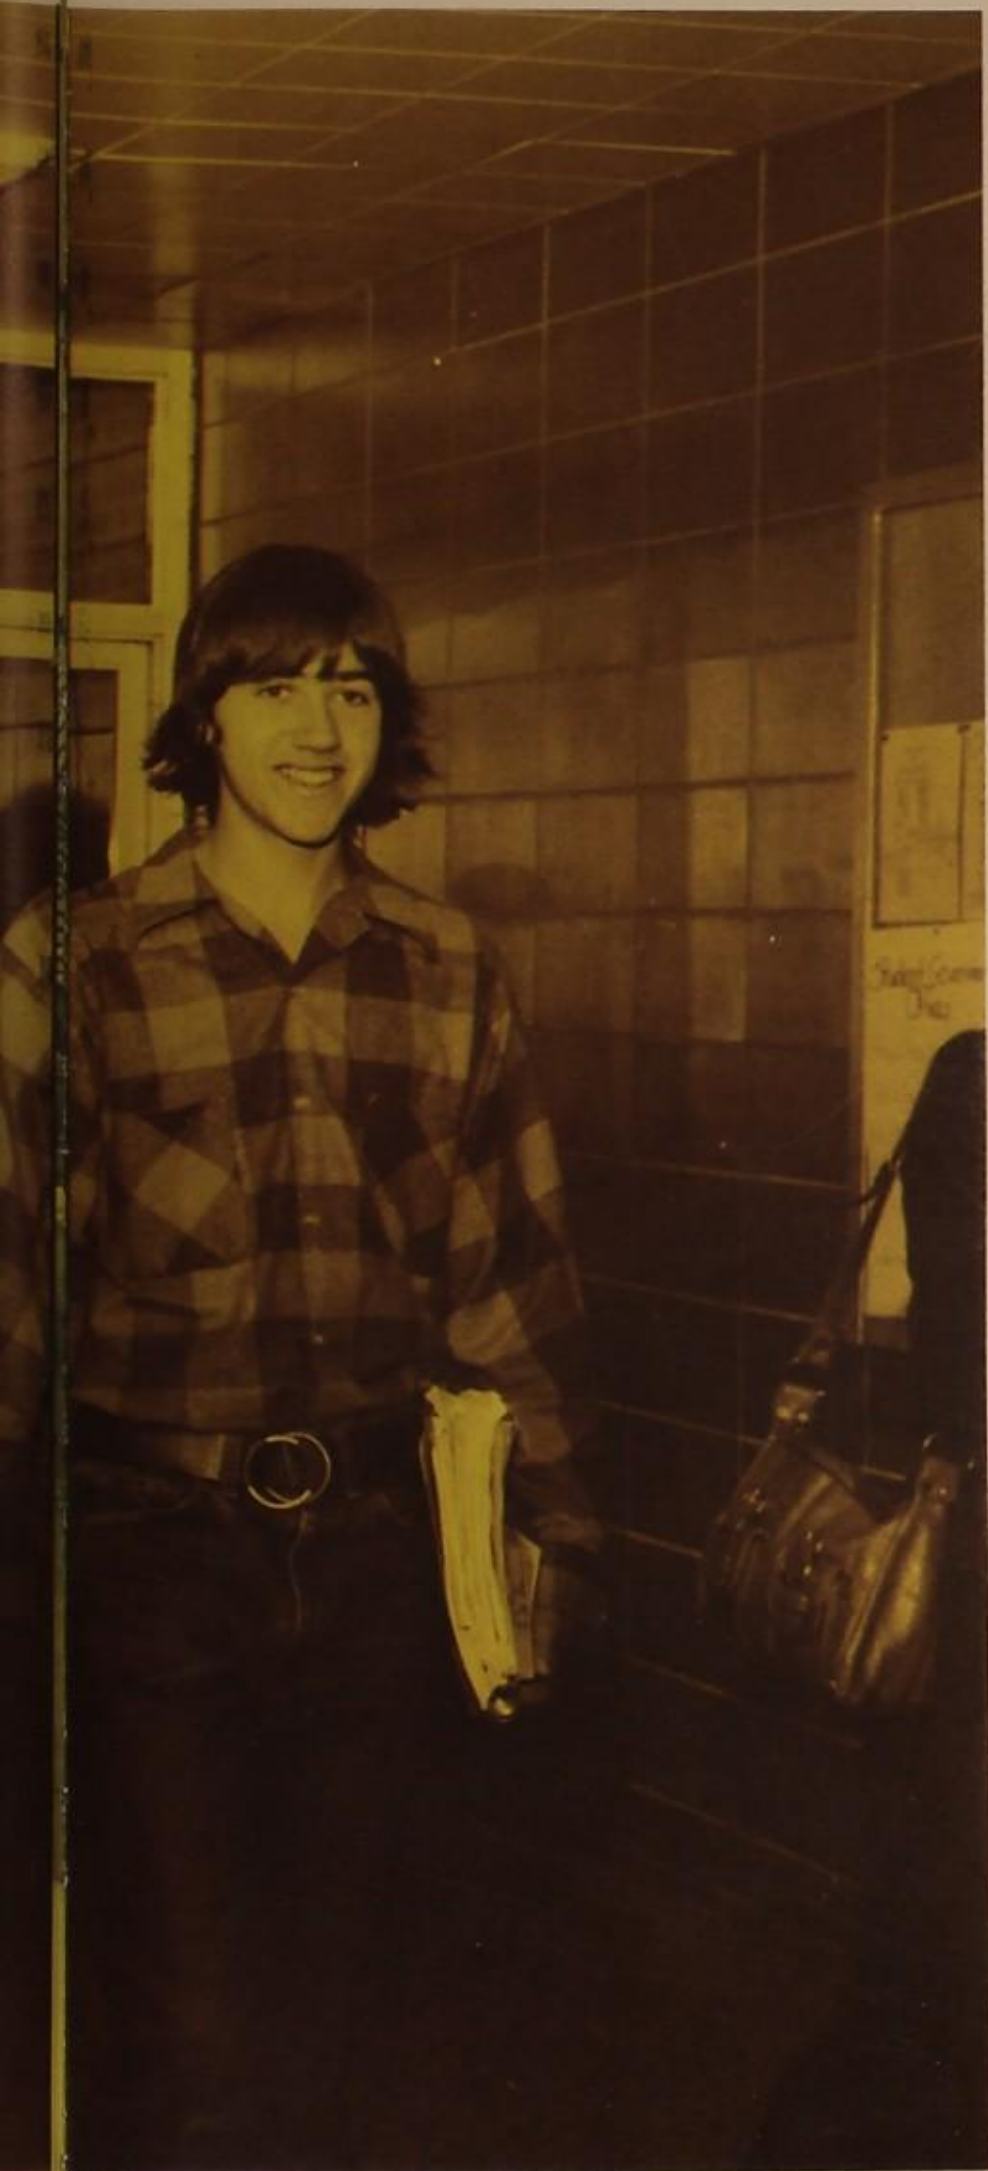

Striving for success in life
Remembering the old but achieving the
new.

Each day brings about realities
Of facing tomorrow's dreams . . .

Wrapped in the present situation
of one's future life.

Karen Honnick

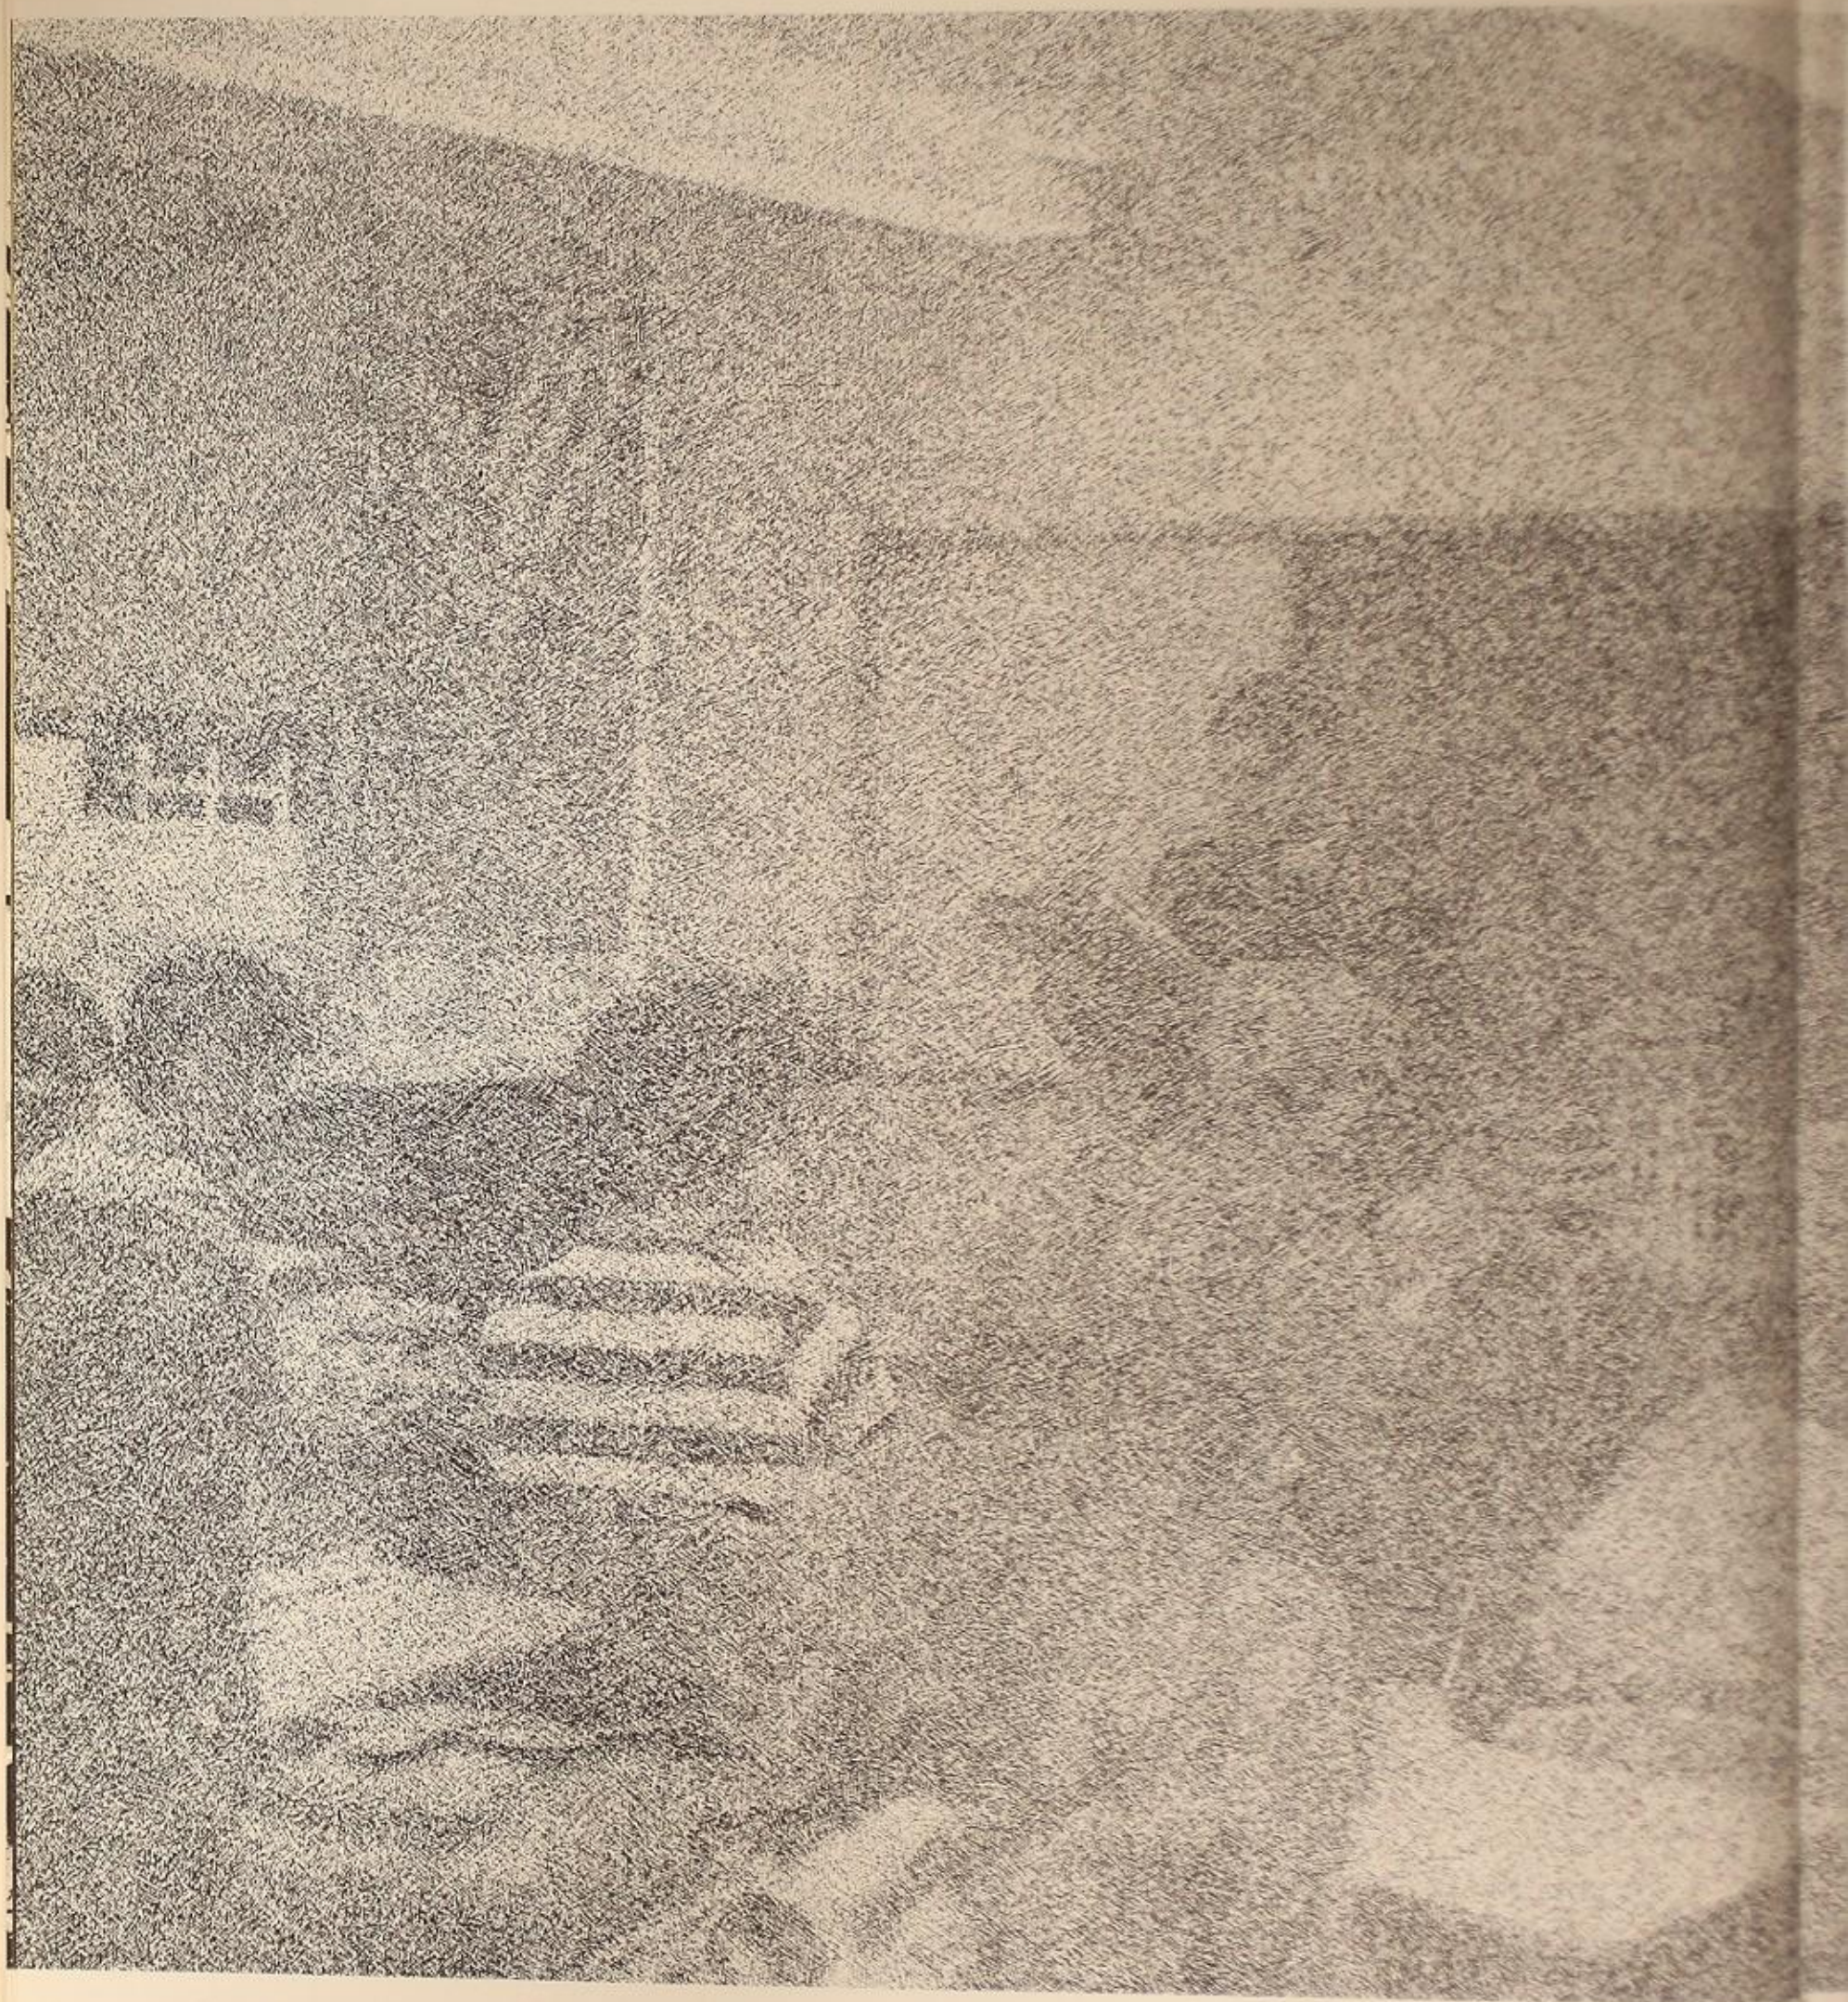

Young minds and bodies
Headed for something
Which they do not yet understand

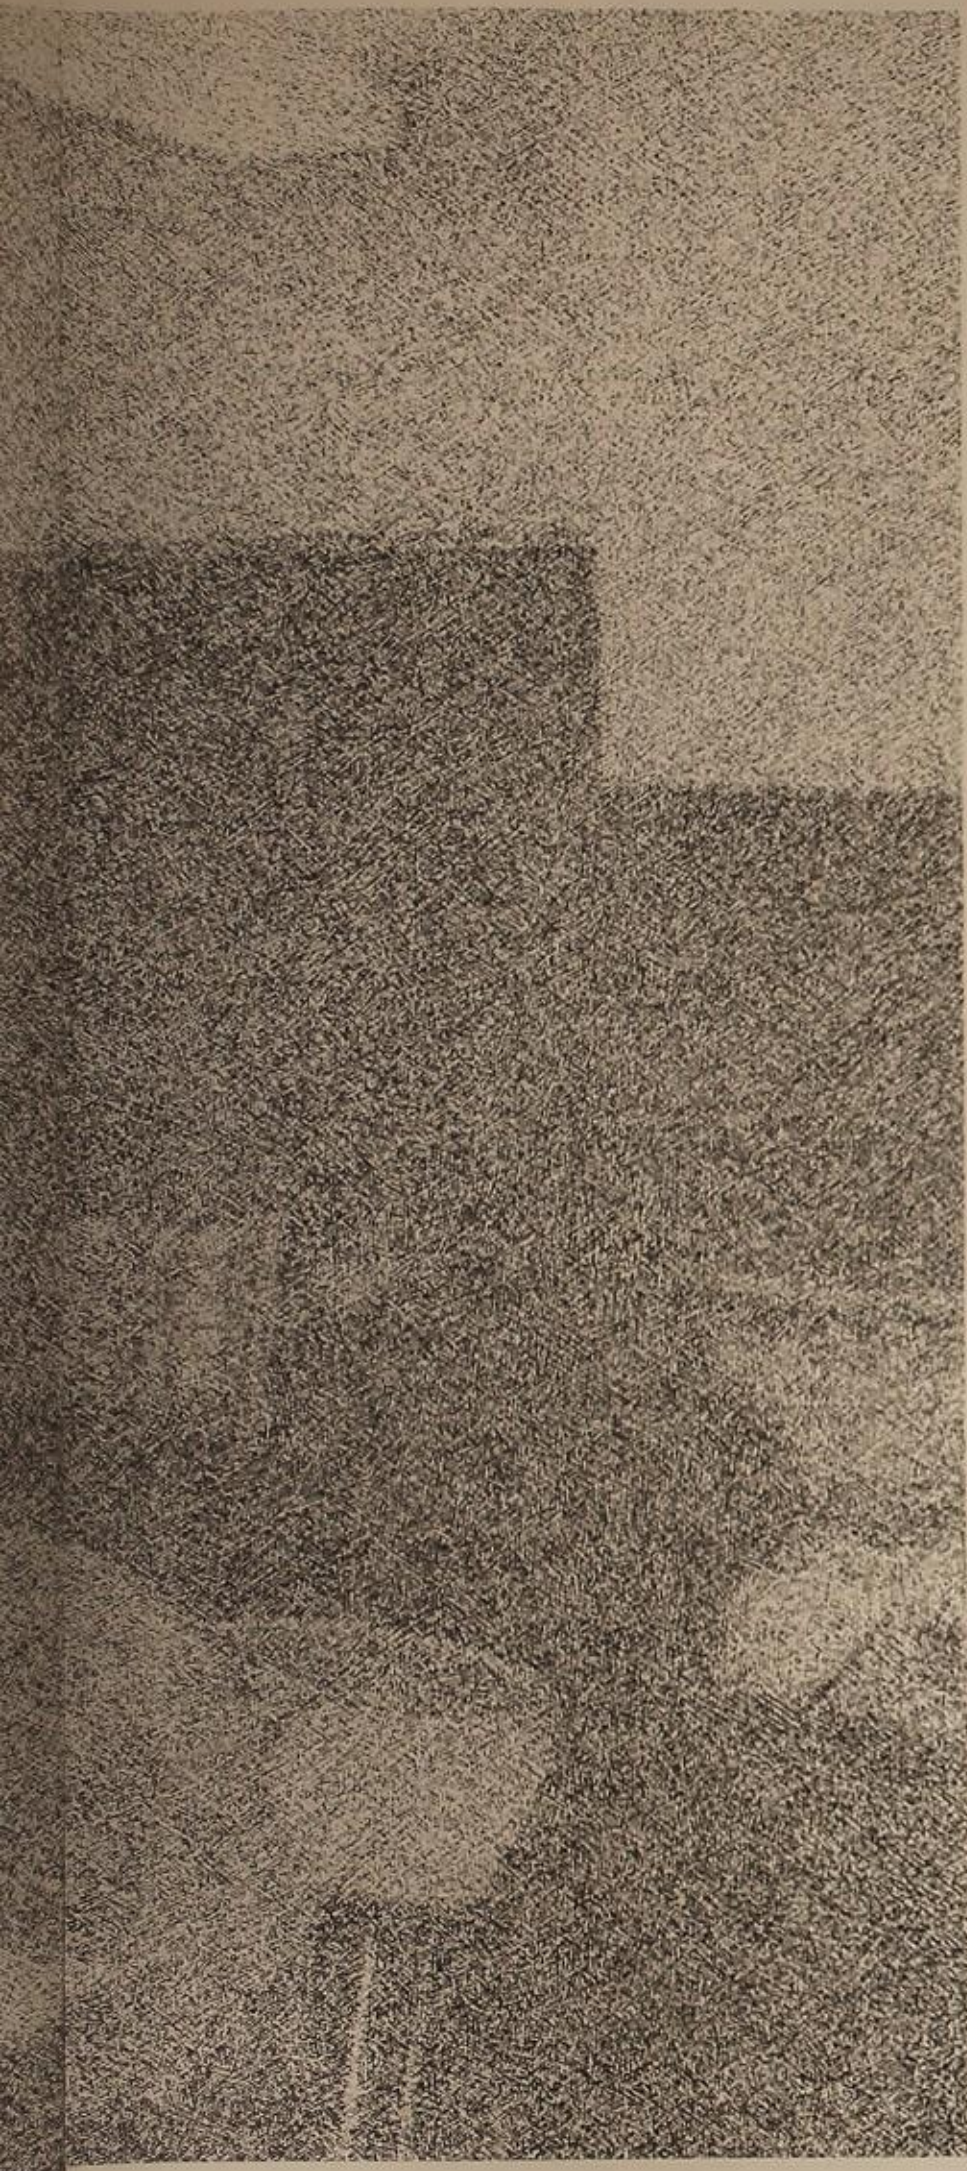

But in a sense
Willing to achieve
What they are sent for

To fill their lives
With prosperous ideas
and ambitions of success

They are the lives
of our school
and the future of tomorrow.

Karen Honnick

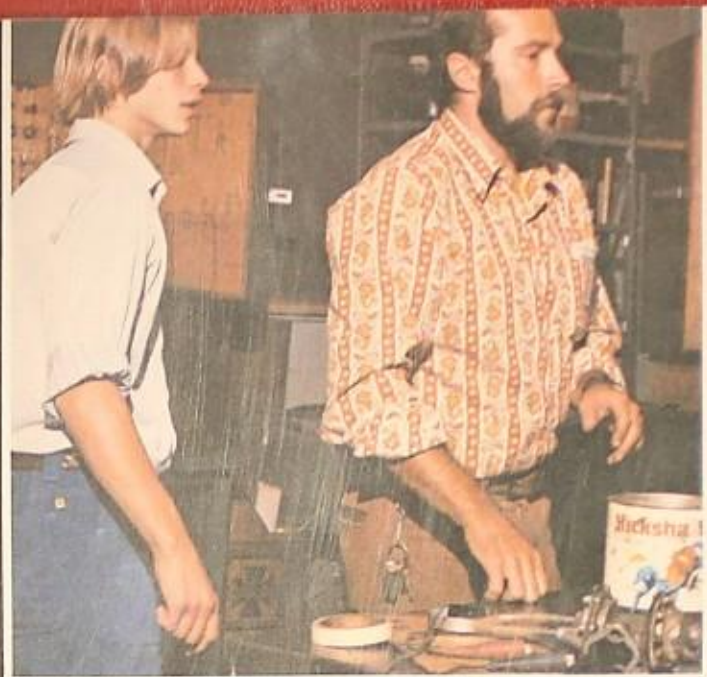

Hours upon hours
of dedication, work
and time . . .

Tied into bundles
resulting in serious
and caring people . . .

Without whom
we could not exist . . .

In an atmosphere needed
for education.

Karen Honnick

AS YOUNG PEOPLE...

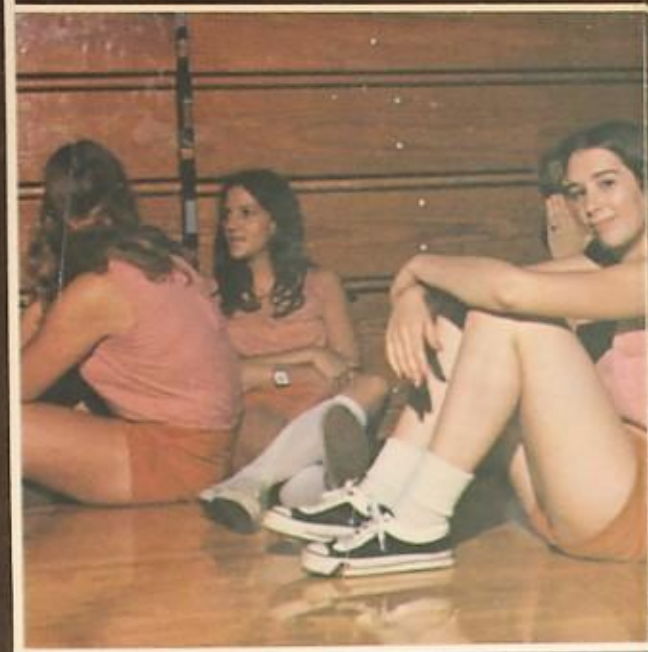

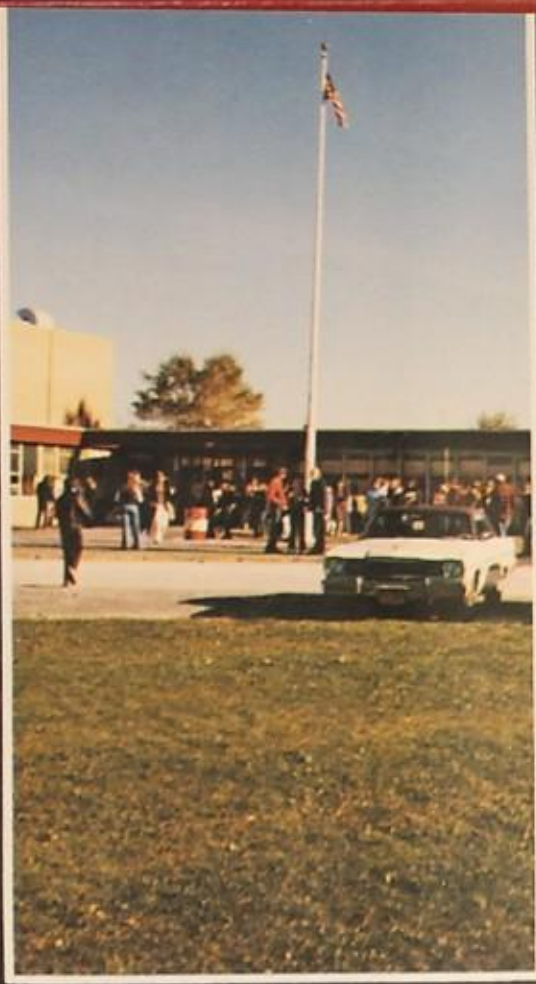

We look to adults and peers for the guidance and knowledge we need to succeed.

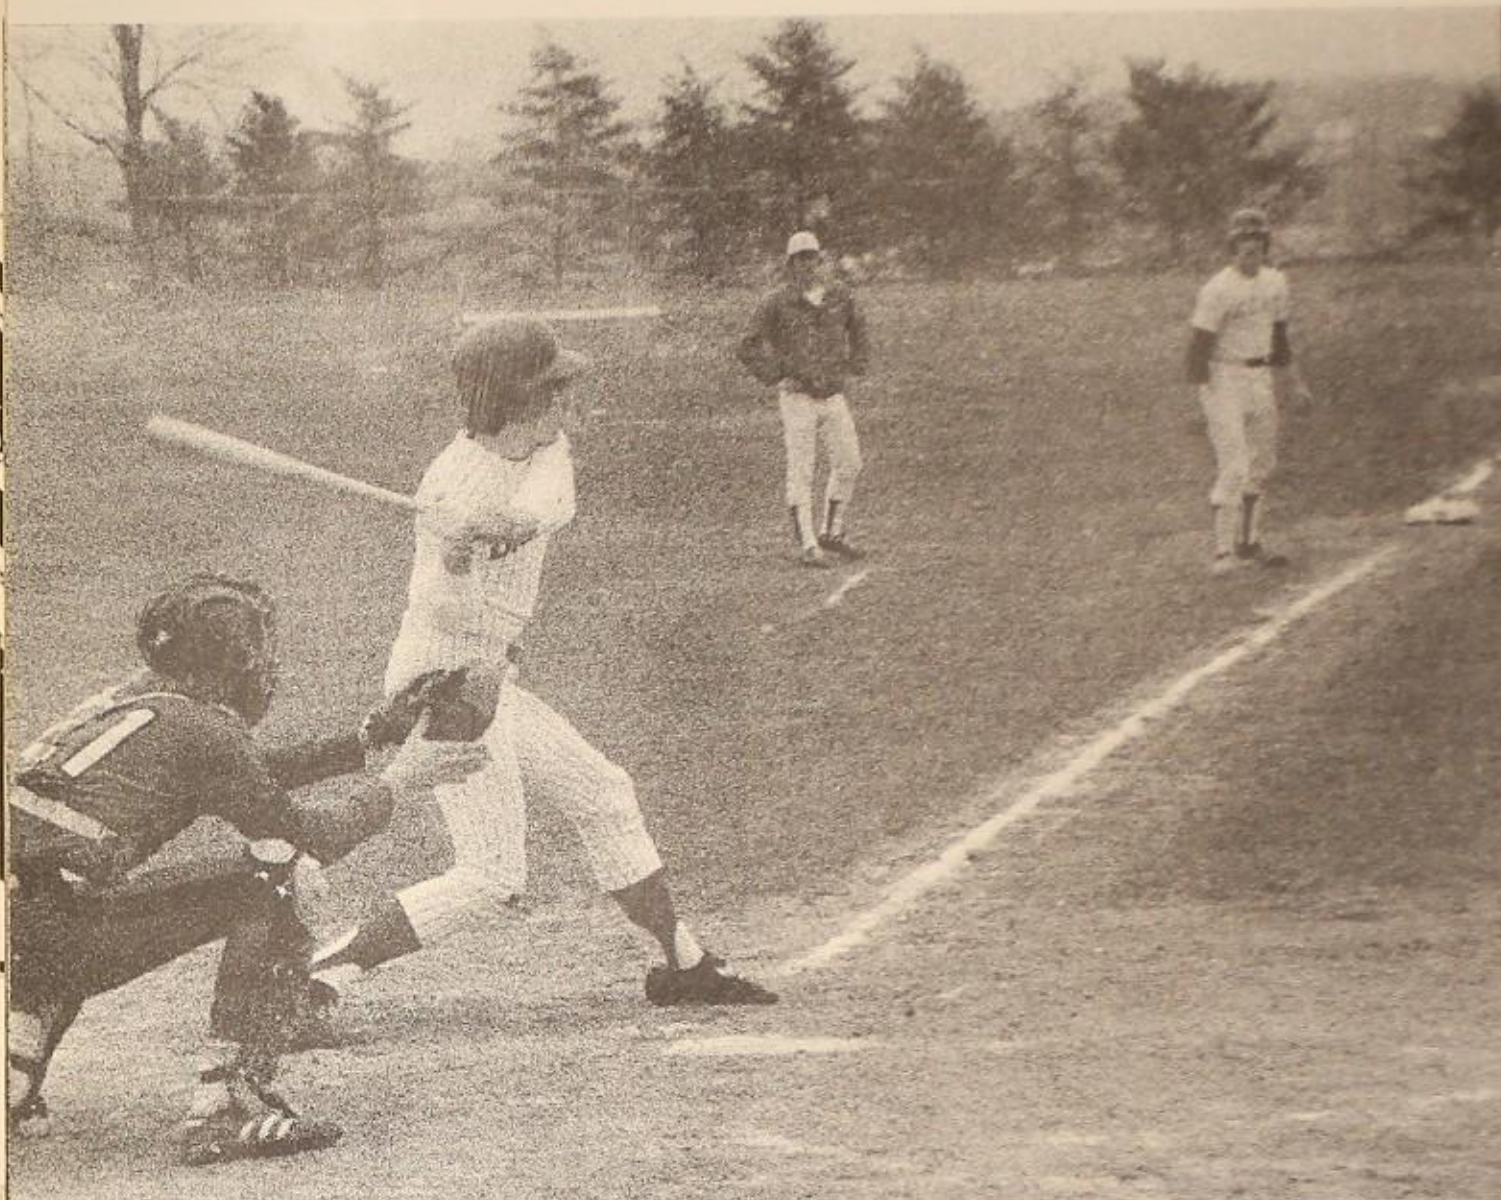

We experience apathy and involvement, solitude and togetherness, weakness and strength, strife and success.

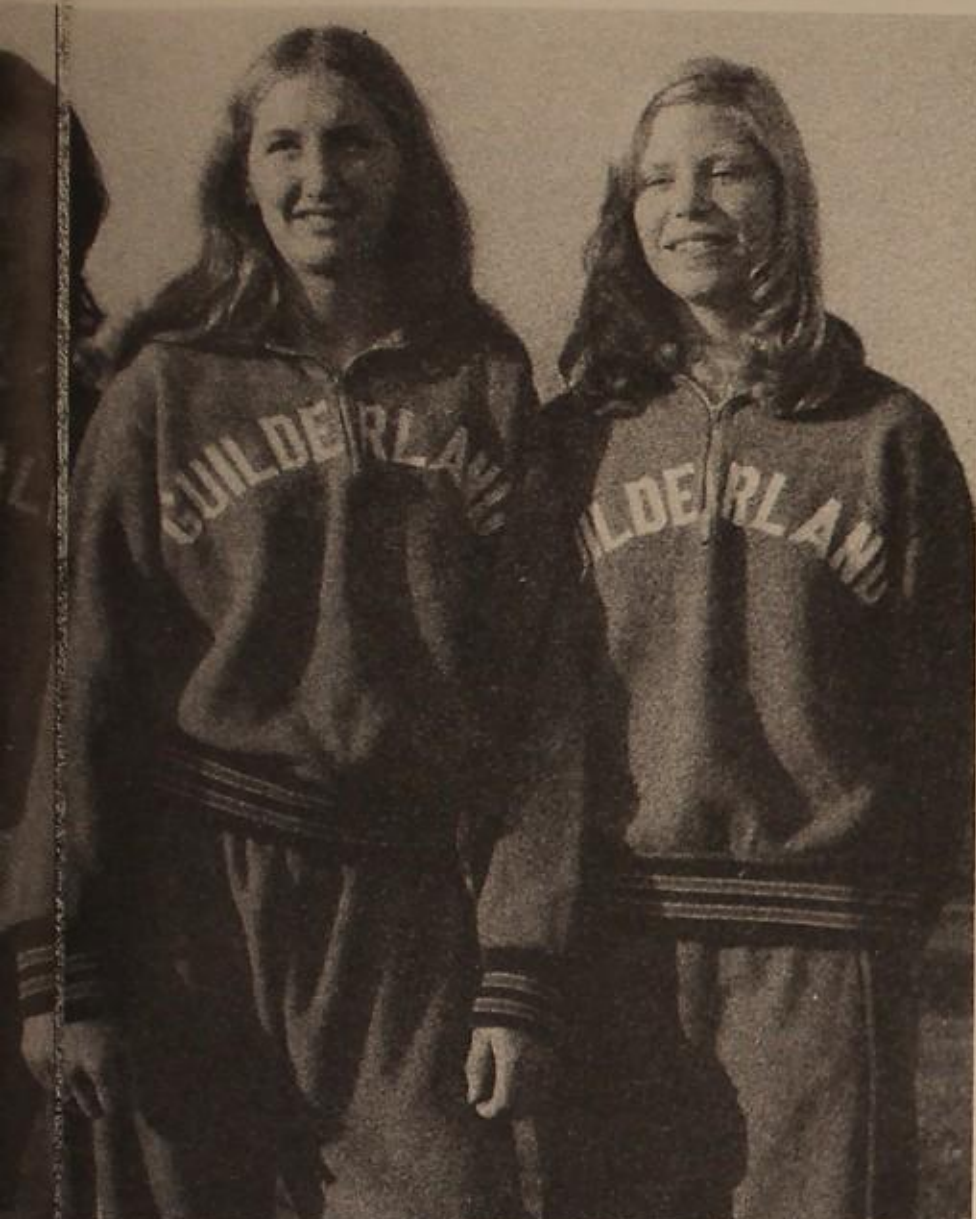

Our aim is to graduate, to experience the fullness of life in the achievement thereof, and to live each day fully thereafter.

WE ARE ALIVE!

Young minds reaching out
Striving to achieve the highest goal . . .

Imagining what it is like to succeed
To win, to be number one . . .

Working hours upon hours
Sweating through the frustrations . . .

Preparing for the moment
When truth unites with reality . . .

When the mind and body
Work together as a team.

???

(ONLY ONE DOLLAR - PLEASE
HELP US HAVE A BETTER
JOUNGE. WE STILL NEED
IMPROVEMENTS
YOU?)

The needed support of people
To bring about a special book
Where the meaning is deep
And the memories are held . . .

Students might not realize
The importance of support,
How inner giving and acceptance
Plays a vital role in its completion . . .

A little from everyone
No matter how much
Adds up to be enough.
We are truly thankful.

1976 OFFICERS

Seated: Gigi Mastrianni, Pauline Dagullo. Standing: Nancy Schell, Sandi Steenburgh, Wendy Meagley, David Canavan, Denise Munn.

The Class of 1976 of GCHS has finished one phase of life. The next step for many is vocational school, college or work. Though many of us will lose contact with each other, we will always have many memories—memories of our freshman activities, such as roller skating, dances, bake sales and candy sales.

During our sophomore year ('73-'74), we netted \$2,700 from our candy sale and were the first to have a Tree Trimming in the West Building and a class trip to Eastover.

During our junior year ('74-'75), we continued developing our class spirit in such projects as roller skating, Sadie Hawkins' Dance, class trip to Jug End and, most important of all, the revival of the Junior Prom with a court. Kitty Knapp was Queen and Bruce Sumner, King; a nice way to end the year.

But this year ('75-'76) topped them all. The first big event was Homecoming. Sue Churchill was Queen. We held our usual Tree Trimming

party. In January we held another first—A Senior-Junior Bicentennial Ball, a very successful and fun event. Our Senior-Parent Dinner was held in April. In May the seniors went to the Concord for the class trip—another first as it was held on a Monday.

The final month of our stay at Guilderland was the best. Our Senior Ball was held at Michael's in June and finally our big day came—Graduation, the climax of the events and many fun-filled memories.

It has been said that we, the Class of 1976, were the most spirited class to enter Guilderland. Much credit for that is owed to Mrs. Barbara Redmond, our class adviser. We owe her our thanks for helping, planning with, and advising our class.

We may never see each other again, but GCHS and our class will always mean something important to us.

There comes a time to realize
 what's worthwhile in life,
 to find out it's the little things,
 like a small smile, a friendly hello, a kind word—
 but most of all, friends.
 And as long as I believe in your being
 you're what's worth having in life.

Valerie.

Fleda thinks the sky is falling!!!

"Hey, sweetie, what are you doing after
 the game?"

Another Monday morning...

"The Three Musketeers"

Two football players relax after a hard game!!!

You've got to be kidding?!

27 more seconds and counting...

Come on, Linda, stop hiding and give us a smile!

Those new science books must have something pretty interesting in them to get the attention they are getting!

I paid \$3.50 for this!

UNDERCLASSEN

A place where you can think,
where your thoughts can flow with the water
while the sun reflects the meaning of life
and all people can come together as one.

The clearness of the sky and the water,
the gentle swaying of trees in the breeze
reveal the tranquility of something special
where all are able to express themselves.

People growing, learning, and sharing,
searching for something intangible
which lies upon the surface

but is not yet discovered.

The Freshman Class has shown enthusiasm and interest in furthering Class activities during their first year at the high school. The Class of '79 is the biggest class ever to enter the school, with over 570 registered in the class.

At its first attempt at fund raising, the Class made over \$800 selling poster boards. The class has hopes of having a dance in the spring and another money-raising project at the end of the

year. The eight class officers foresee the need to obtain substantial funds this year to make future events, such as their Junior Prom and Trip and Senior Ball and Trip, less of a financial strain.

With a large number has come a great deal of enthusiasm, and the advisors, Mrs. Michele Bethmann and Mrs. Kathy Torino, are going to have to keep "two steps ahead" of their ram-bunctious charges for the next three years.

Space control seems a little concerned about Mariner in its docking procedure. We might have lost our "men in space" if it hadn't been for the keen minds of the astronauts and cosmonauts. History was made in 1975 with the hookup in space—Americans and Russians shaking hands thousands of miles above earth in hopes that the same could happen in daily relations on Planet Earth.

Activity seems to be the by-word of the Class of '78. With a great deal of incentive, they do what has to be done. Proof of this can be found in good ideas turned into fun activities.

Soph events include a rollerskating party and an informal dance. Also planned for the year are "Cinema '78," the showing of popular films; an

ice skating party; a class trip; and a dance on the Ticondergoa steamship on Lake George!

The eight class officers and their advisor, Mr. Robert Drake, strive for total class involvement. The class is well organized and ready for their next two years at GCHS.

Isn't love wonderful!

And now for the secret ingredient . . .

Hmm . . .

Hi, again?

Now, wait a minute!

Mark hasn't changed any!

It's us again!

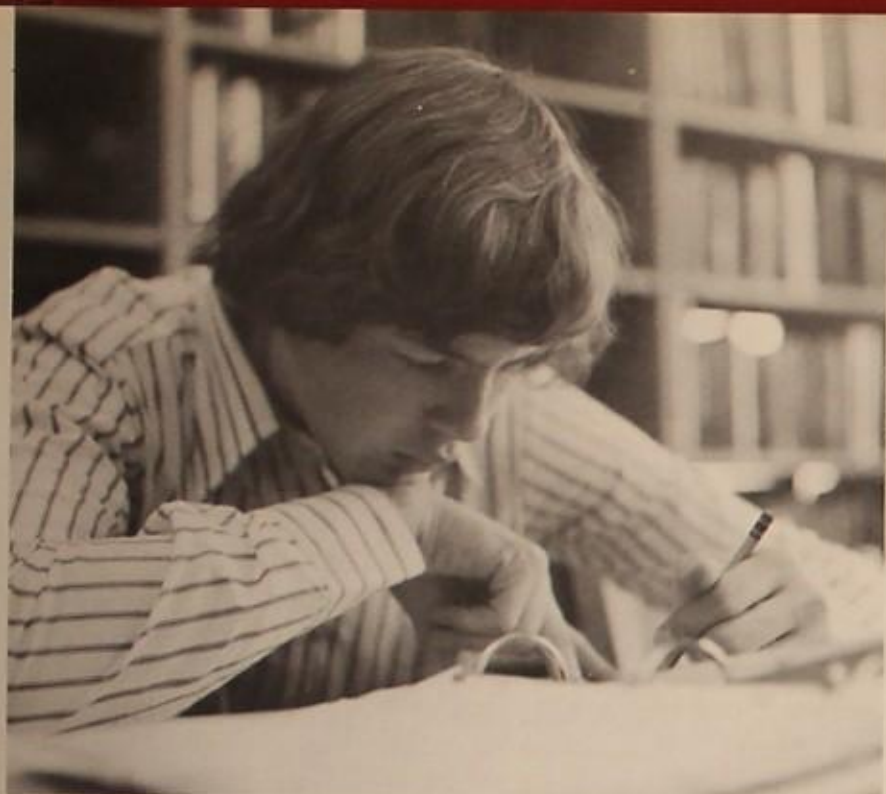

Oh, did Michael get hurt again?

Look out, Bruce; Joe's on the loose!

Look what's clogging up the hall!

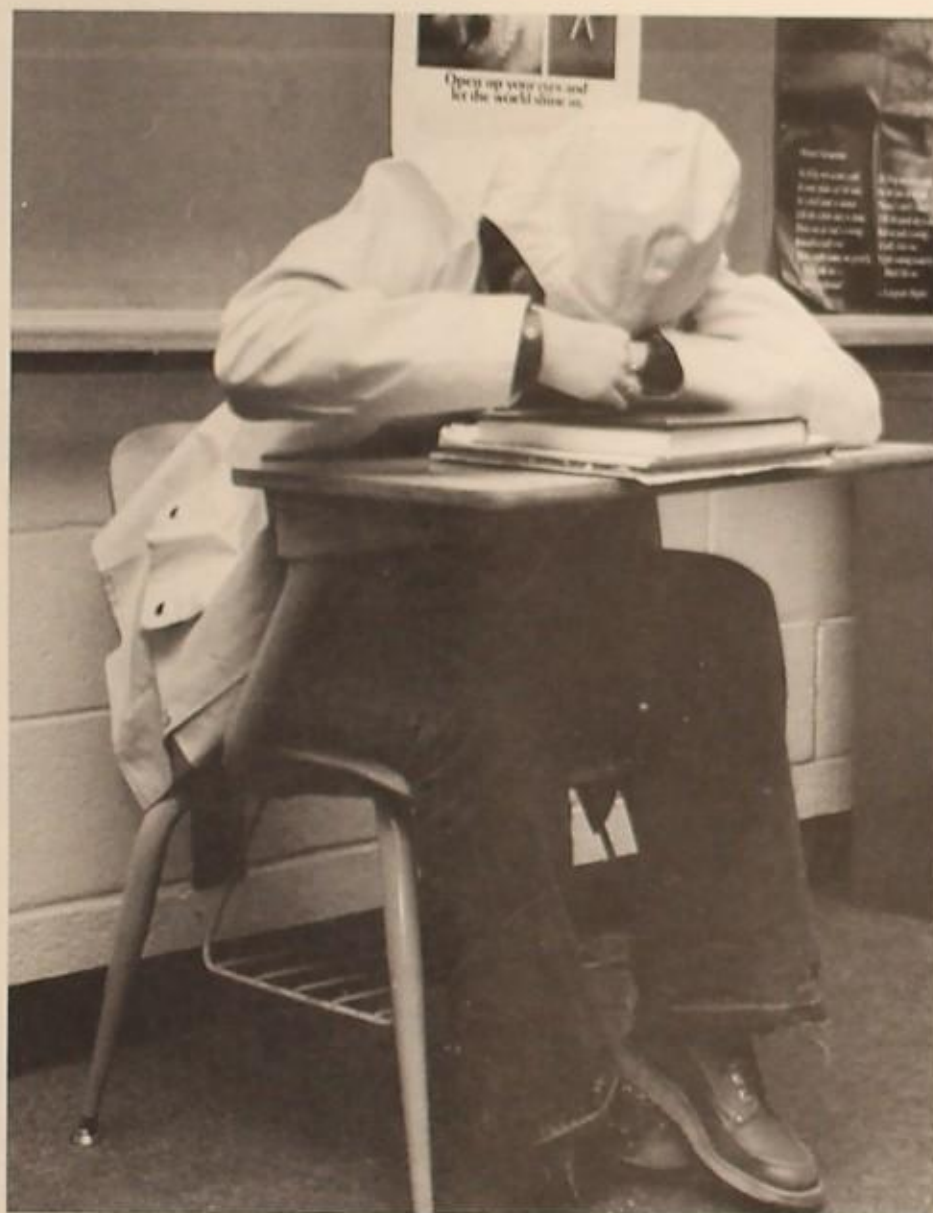

This student certainly is engrossed in his work!

"C'mon Chris let's do The Hustle," says Linda.

Space Lady looks "lost in space."

Camille's ready for a rainy day—and doesn't believe in signs.

CLASS OF 1977

SEMI-FORMAL

About 50 couples attended the dance in the East Gym, where decorations made by volunteers had been skillfully placed. The class officers, Mrs. Cooper, and all who assisted worked hard to provide this opportunity for a pleasant evening.

While the number attending was small, the atmosphere was congenial and afforded the opportunity for the participants to enjoy a relaxed informal gathering.

Sharon and Bob seem interested in something on the far side of the room.

Michele and Jeff are on cloud nine.

"First I turn; then you turn . . ."

Happy couples.

"What's that you're saying, Beth?"

Do you see what I see?

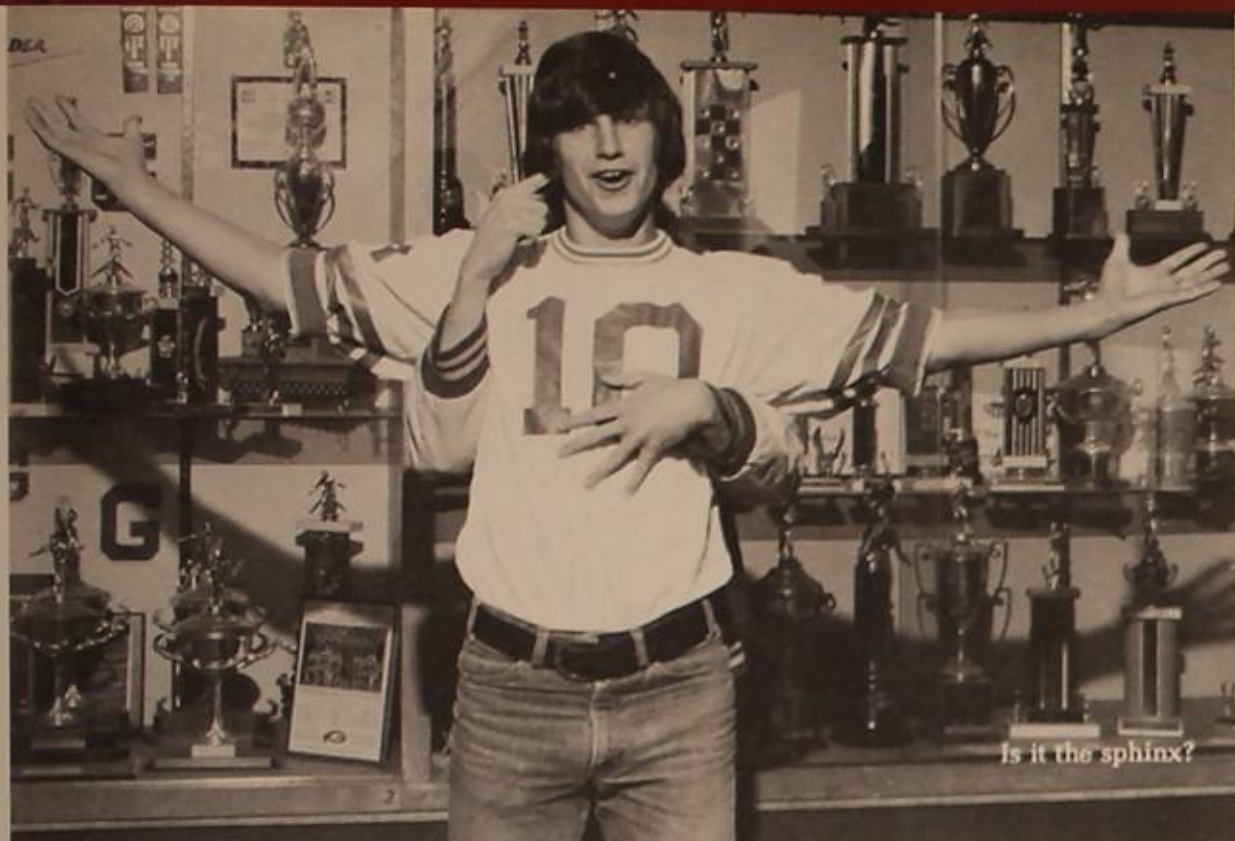

BACK: Mary Worthington, Publicity Director; Becki Chapman, Vice President; Sarah William, Secretary; Beth Lott, Publicity Director; Eve Aretakis, Treasurer. **FRONT:** Kathy Mastrianni, President.

The Class of '77 is one which has come a long way since 1973 when the members entered from the Middle School that September. With the aid of seven class officers, the juniors have enjoyed a good year. Since most of these leaders are veteran officers, they are aware of class needs and wants. They tried to schedule one activity per month with the activities of interest to all class members.

The major trend set by the Class of '77 has been sponsoring bigger and better events each year. This year, such a trend was supported by a prosperous candy sale held in November, which greatly enlarged the class treasury. Money raised from this sale was to go toward such activities as: a Christmas window painting contest, an ice skating party, a ski trip in addition to the annual class trip, the Junior Prom, and a class picnic. With these in mind, the juniors look forward to an exciting senior year.

Is it the sphinx?

Gotcha, Tessie Lou!!!

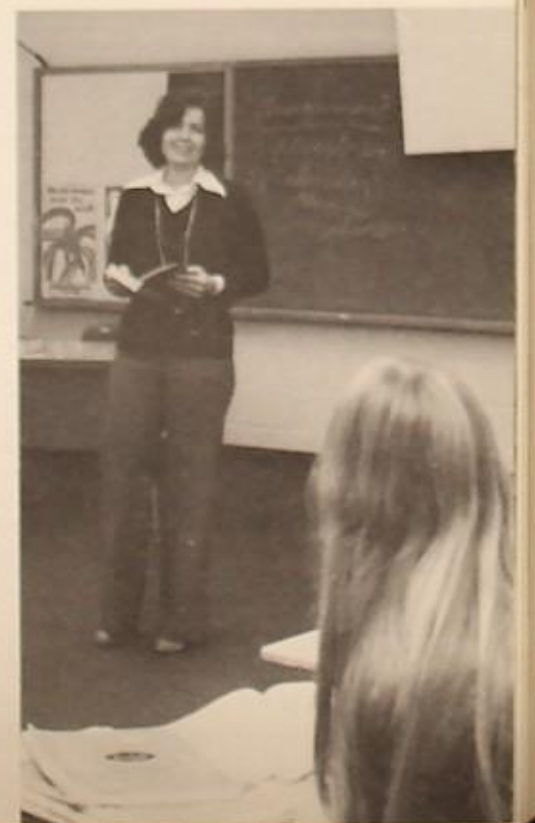

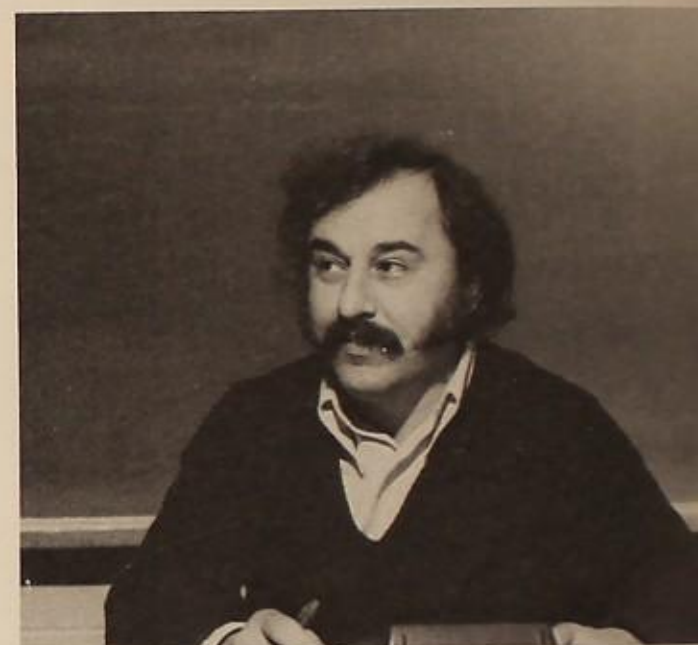

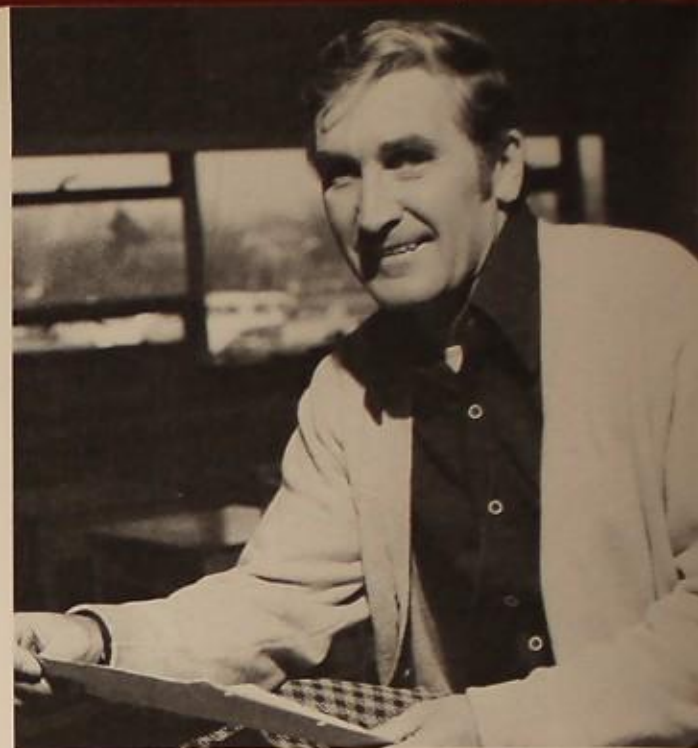

That's all, folks!

ACADEMICS

TOP: MRS. DOROTHY JENNER, School Nurse/Teacher. BOTTOM LEFT: MRS. MARY JANERICH, RN. BOTTOM RIGHT: MRS. NANCY LOWN, Secretary.

TOP: JOHN T. RYAN, Department Chairman of Driver Education and Health, Driver Education. BOTTOM: RICHARD BELL, Driver Education; JV Wrestling Coach.

HEALTH SERVICES

Whether in sickness or health, a student is welcome in the health office. Here, students have annual physicals, eye and ear exams and all the special physicals for participation in sports. Here, Mrs. Jenner, the school nurse assisted by Mrs. Janerick, R.N., takes care of the first aid, aches and pains, issues gym excuses and listens to the tales of woe. Question still to be answered! "Why does most illness and fainting come over students during English or math quizzes?"

DRIVER ED

Driver Education is a one semester elective offered to pupils who reach the minimum legal driving age. Preference is given to members of the senior class who do not possess a license. Classroom and laboratory instruction run concurrently.

Each student is expected to complete a certain number of periods in classroom instruction and at the simulator. Strong emphasis is placed on actual driving. This course is designed to teach the basic techniques of driving and to encourage safety on the road.

TOP: NICK COLAMARINO, Health; Horseback Riding Club. BOTTOM: JOHN HARRISON, Health, Girls' Physical Ed; Freshman Basketball.

HEALTH

The course offered is one semester and carries one-half credit. No prerequisites are required. Topics covered include physical health, environmental and community health, first aid and personal safety, sociological health problems, mental health. Class activities include group discussions, individual reports, research projects, films, filmstrips, and video tapes. The course is taken in the junior or senior year; a few sophomores take it during their second semester.

1. JEAN STEVENS, Child Development, Advanced Foods; Football Cheerleading Advisor. 2. KATHLEEN DRUMM, Intermediate Foods, Tailoring, Red Cross, Basic Clothing. 3. ELAINE MAROUN, Home Economics Careers, Child Development, Basic Clothing, Intermediate Foods; Craft Club Advisor.

HOME ECONOMICS

In order to keep pace with today's changing life-style, our department of Home Economics offers thirteen elective courses each semester. Boys and girls study either in the attractive, comfortable classrooms on campus, or out in various businesses in the community.

MUSIC

The music department has activities for all students interested in gaining a greater understanding of the composition, quality, and performance of music. Courses are offered in music theory, choir, concert band, wind ensemble, orchestra and stage band. Individualized instrumental and voice lessons are also given. A wide variety of music is studied, and students are expected to perform in a number of concerts throughout the year.

ART

THEODORE VICKERY, Mechanical Drawing, Drafting, Graphics.

JOAN JOHNSON, Creative Crafts, Studio-in-Art.

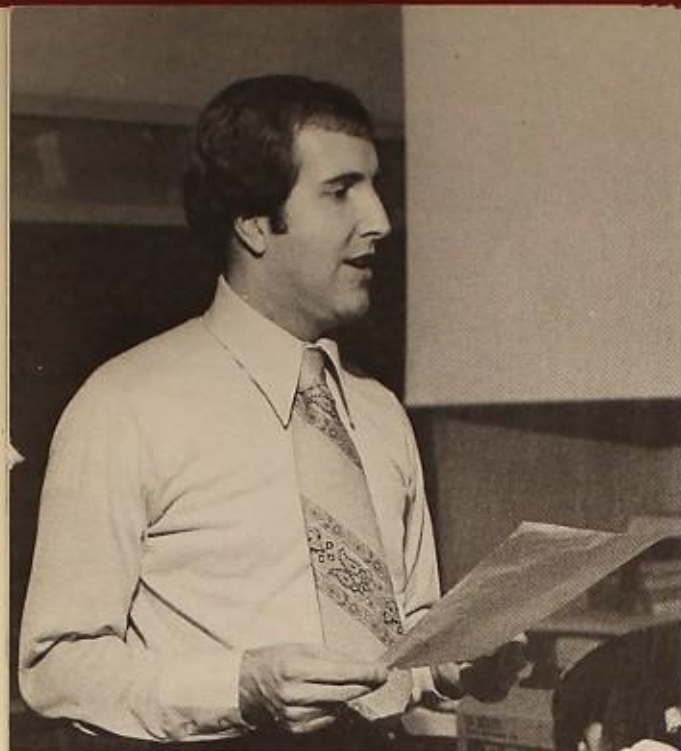

Anything from painting a self-portrait to making an album cover could very well be a project-in-progress in one of the art rooms. The soft voice of Helen Reddy or the thunderous sound of the Doobie Brothers helps create a atmosphere unique to the art rooms.

Drawing, painting, art and crafts, advertising, and mechanical drawing are courses offered by the department. If a student is planning to attend a college which requires a portfolio, the art teachers give the student much attention and many helpful hints about preparation of the portfolio.

Student art work is often on display in various places around the community, including Colonie Center and The Bank.

During the past 10 years, the many technological changes taking place in our society have necessitated some changes in the mathematics program at Guilderland. We are attempting to increase the number of students who receive some instruction in computer programming so that they will be better able to understand how the computer can be used as a mathematical tool as well as how it can be used to process information. We also make available desk calculators in the Math Resource Center for students to use as a mathematical tool. The math program at Guilderland includes courses for both college bound students as well as for students who will termi-

nate their formal math development in high school. Opportunities are made for students who start out slowly in mathematics to get a 3-year sequence in math.

The teachers in the Mathematics Department have strong and varied educational backgrounds. Many are experienced teachers who have helped strengthen and extend the math program available to students.

The Math Resource Center is a popular place for students taking math courses—especially for those students who need a little more explanation of the material. There is always a math teacher available in this room to help students who have questions regarding their work.

BUSINESS

Bookkeeping and typing skills are taught to prepare students for employment in business. A wide variety of general and specialized offerings enable students in the fields of retailing, data processing, or office work to take jobs during the school year and immediately after graduation, or to further their education in two or four-year colleges or business schools, building on an already solid foundation of skills and understandings.

There are twenty-nine students in the Learning Disability Program. They are from Guilderland, Bethlehem, Berne-Knox, Watervliet, South Colonie, and Green Island. An individual program is set up for each student. There are many different programs offered. For example, some students attend the occupational education program; some are mainstream in the high school program; others are in self-contained classrooms; some are on work-experience programs.

READING

The reading department has several facets. It is primarily Mrs. Nielsen's job to assist teachers in attempting to improve students' reading abilities. The reading center is a resource room for teachers and tutoring pairs. Mrs. Osterhout supervises all tutoring pairs of students. Tutoring exists for students of all grade levels and abilities.

LIBRARY

The library, located along the front of the East building, is an 8,000 square foot, 260 seat complex that is the informational center of the high school.

The 30,000 plus books and the 100,000 plus magazines dating from 1956 form the core of the center. The increased emphasis on independent study has made these large collections essential.

The Senior Alternative Experience Program is a community-school program which allows students to receive experiences in the community. Students fulfill their school obligations through tutorials, community courses, regular high school courses, or courses at local colleges or other learning institutions.

S.A.E. allows the students to work at their own pace and level at the same time meeting deadlines which their advisors set. Students are selected for the program on the basis of their application, a personal interview, teacher recommendations, and ability to handle responsibility.

S.A.E. is structured around a four-quarter system. Each student and his advisor arrive at a contract, to be fulfilled by that individual. The four advisors are Mr. Robert Drake, Mrs. Linda Basinait, Mrs. Minette Munson, and Mr. Frank Pidgeon.

Community experiences include working in a color photo lab, in a dentist's office, at a State Police Academy, at the State Legislature, at Griffin Lab., at Dr. Brennan's, at SUNYA or Cobb Memorial, to name a few.

SCIENCE

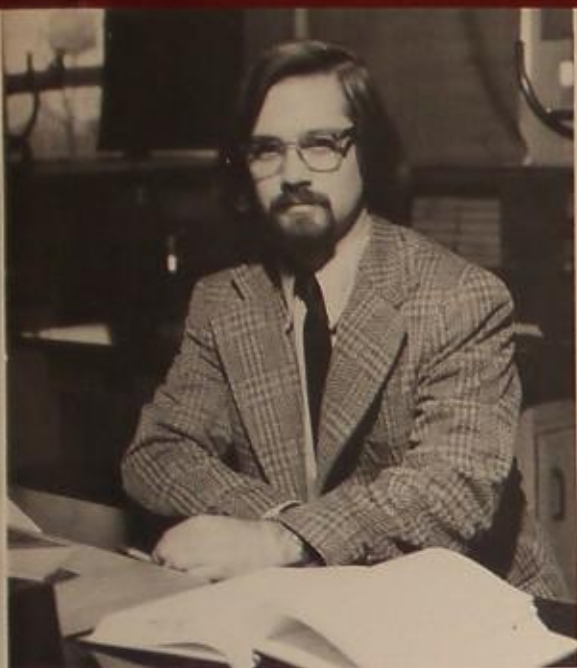

The world of science seeks to explain the wonders of the universe. Scientific advancements are made everyday. For this reason it is necessary for everyone to have some understanding of science. The curriculum offered at Guilderland tries to meet the needs of the budding scientist as well as the needs of the students who may not intend to continue scientific pursuits. Whether one enters the science department for credit or in the pursuit of knowledge, a greater appreciation and understanding of our natural environment is obtained.

**Dr. Thomas F. Looby
Superintendent
of
Schools**

Dr. Looby talks with a student about 1976 and the future...

Over the years things have progressed. Opinions, decisions and values have changed. According to Dr. Looby, he is pleased with the changes that have taken place and those which are being looked into for the future of Guilderland High School.

In the past few years, Guilderland has developed new programs to help students. One program Dr. Looby seemed very impressed with was the reading program. It benefits those students who are kept behind in studies because they are slow readers.

The SAE program, established for seniors in 1974, has proved gratifying. The students have a chance to work in career fields of their choice and find out if this is what they want for their future. They learn responsibility and how to get along with others. They have the chance to work in the community and help people less fortunate than themselves, learning how to cope.

Our sports program has expanded a great deal in the past few years. We now have girls' interscholastic athletics. The girls are able to compete with other students from other schools and now receive recognition for their abilities and achievements. Dr. Looby commented, "We hope to expand this program further, but more interest must be shown."

Dr. Looby also discussed changes which the Board hopes will come about. This is a three-stage program with the first change to occur in the school organization. Arrangement of the school in mini-schools is suggested. This would provide for better relationships between students and teachers and among teachers themselves.

A second change hoped for is to allow students on 10-week contracts. The Board feels that this would give students more of an opportunity to work in different career areas to allow them exposure to many career opportunities. This would also give them the opportunity to assume more responsibility. The students would have to notify a supervisor when they are unable to do the work on a particular day and make arrangements to make up the day, if necessary. These contracts would be extended to involve students in volunteer work. This approach would enable students to do specific tasks for someone else, providing a learning experience and a feeling of satisfaction from performing the service.

The third stage of this program might be to lengthen the school day- possibly from eight in the morning through ten at night-to provide services, classes, etc. The students would set up their school schedule according to time slots revolving around jobs, career and service experiences, and other involvements they would like to pursue. Students would still have the chance to get classes into their schedules while working outside the school. Students would need to set priorities and become more responsible for their choices.

Guilderland has shown many accomplishments for which the students, teachers, administrators and parents can be proud. In keeping with this, the administration and staff are developing and innovating new policies to continue the fine education of the students, giving the students the opportunity to be included in the planning of those programs which will affect them now and in the future.

TASK FORCE

The High School Task Force, organized in September 1974 and charged by the Board with the duty of finding and recommending those changes which would increase the effectiveness of the high school in some areas, utilized the combined efforts of students, parents, teachers, administrators, and board members to develop recommendations for worthwhile changes at the high school. Through the process of research and study, the members worked on subcommittees to investigate and report on various topics, including courses of study, climate of the high school, and effects of the physical aspects of the school buildings.

Through a system of "Rounds" following the extensive reading, exposure to speakers, visitations to other schools, polls, and open discussion, the Task Force members zeroed in on the basic issues for change and the real need, or lack of need, for these changes. Three specific areas were defined and teachers and administrators worked during the summer of 1975 to research and study programs which would facilitate the changes to be recommended to the Board.

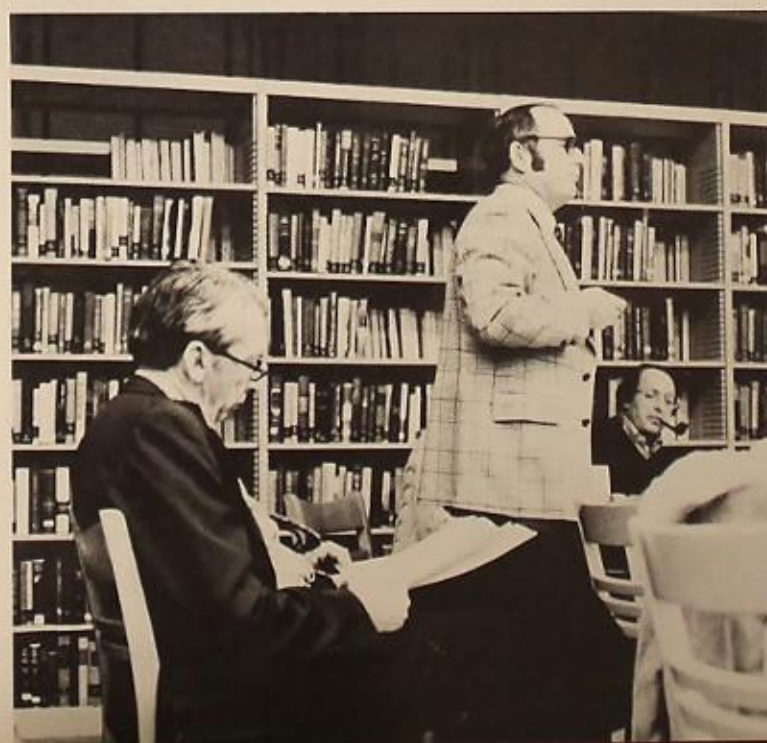

During this past year, the Task Force, again com-

posed of students, parents, etc., has been working specifically on these three areas for the high school: outside experiences—service, career, and new experience; division of the school into smaller units to provide greater student identity; and flexibility to allow for a great number of otherwise unattainable goals.

Nearly every week the group of approximately 50 people has met for two hours to evaluate the proposals. The members' sincere and diligent work, directed by Dr. Joseph Purcell, has enabled the Task Force to present the final proposal to the Board for their consideration and action.

If the recommendations are implemented as presented, the high school will experience some reorganization and regrouping with expansion provided in schedules and student activities in the curricular and co-curricular programs. There will also be opportunity for greater student responsibility and choice. A great deal of time is to be spent in planning these changes before any of the programs are to be implemented. Change is not to be made without sufficient planning for the programs to be developed.

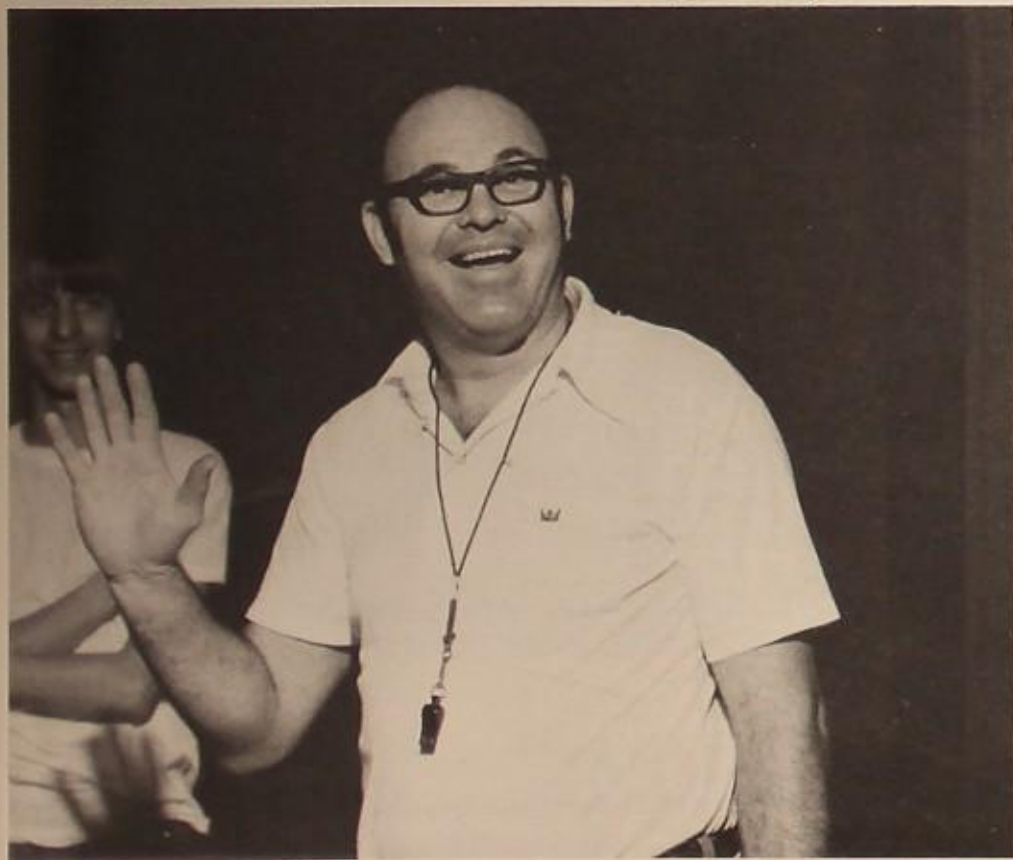

FRED FIELD, Physical Education Department Chairman, 11-12

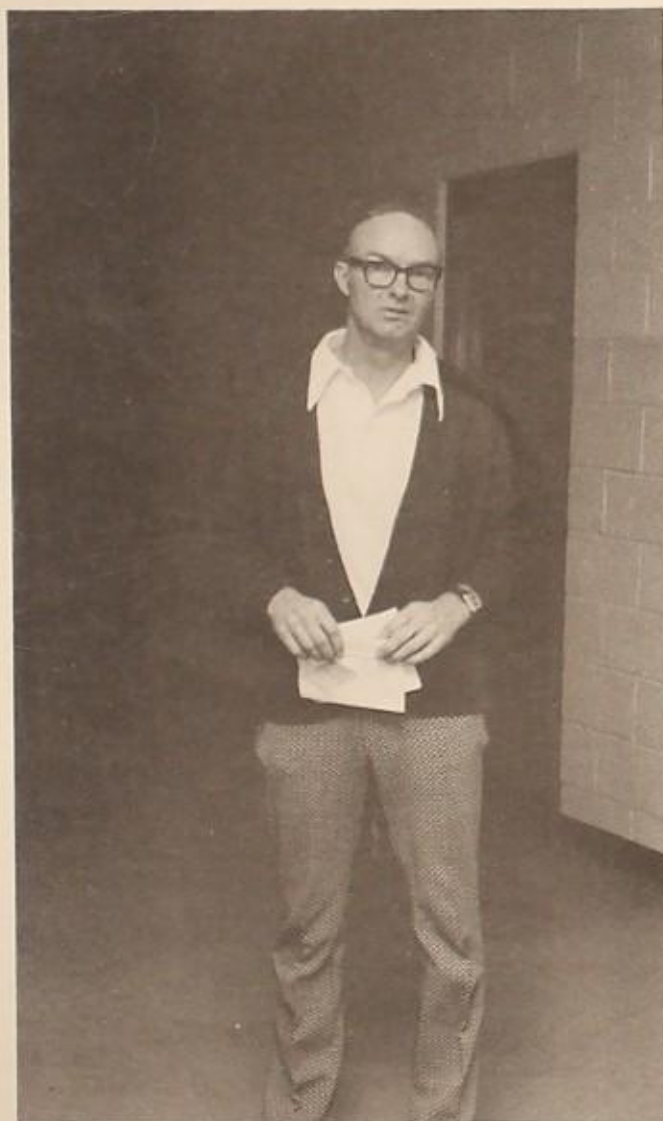

Every student is expected to participate in the physical education program. Physical fitness is an important factor in the development of the whole person. As well as participation in gym classes, students may be involved in a number of intramural and team sports. This year an alternative experience was open to those students who wished to partake in outside physical and educational activities. The physical education program is expanding in many ways, and students are proud to be an active part in it.

FOREIGN LANGUAGES

With the growing involvement of the United States in international business and the multinational interests of our society, the importance of foreign languages in nearly every kind of occupation is evident. It is, therefore, the goal of the foreign language department to make foreign language study a self-fulfilling experience for our students and change their attitudes toward speakers of other languages and people of other cultures in today's world community.

As we celebrate our bicentennial year, we must remember with pride that our nation has been considered a "melting pot." This cohesion and fusion of languages and cultures has

given many of us a sense of cultural pluralism, which makes us proud of our heritage and history. Today's educated person often regrets being monolingual and passes on to the new generation the need for study of other languages. Bilingualism is already a new way of living in many of our major cities. Joint ventures with other countries in space and medical research make us more aware of the need for international understanding and cooperation. All members of the foreign language department have had experiences in traveling and studying in other countries and are good messengers of international understanding and friendship.

GUIDANCE

Counselors help students find answers to many questions since they are concerned about the educational, career and social development of students. Counselors work with students individually and in groups to help them understand what they want for themselves from what is available in high school, in college, in jobs, and in the armed forces.

The counselors help students take full advantage of the available school opportunities. The goal of counselors is to have students develop educational plans that best fit their abilities, interests and aspirations.

On May 31st the class of '75 held its Senior Ball at Michael's Banquet House. The weather was poor but spirits were high.

The night started with a formal sit down dinner. After dinner there was dancing. Then Dean O'Connor gave a very fine presentation about the theme of the ball—"A Time For Us."

The ceremonies were concluded by Theresa O'Hanlon, class president, and Melissa Jacques, class secretary. The class officers read sections from the senior class will. Everyone had a grand time that evening at the last special event the class had together before graduating.

RIDING CLUB

Guilderland High School's horseback riding club consists of eager equestrians who ride weekly at the Mill Pond Stables, Guilderland. The club members plan a horse show in the spring to demonstrate their skills and add to the excitement of their sport.

DECA

Guilderland's chapter of DECA (Distributive Education Clubs of America) is only one of many marketing clubs in the area which provide members with opportunities for business experiences and competition. Advised by Mr. Leicht, the club annually attends the state conference at the Concord Hotel.

INTERNATIONAL CLUB

International Club got off to a quick start this year with an international weekend at which Guilderland students played host to foreign students from the surrounding areas. The festivities resulted in many new friendships.

PHOTOGRAPHY CLUB: BACK: L. Small, A. Stauffer, N. Chamberlin, R. Backer, D. Burger. SITTING: J. Meghoo, K. Johnson, J. Arony, C. Shave.

The conservation club is growing larger each year. There are presently 17 members, advised by Mr. Beebe, a new teacher at Guilderland. The club has hopes of becoming bigger and better next year.

Debate Team: J. Green, A. Lee, P. DeAlleaume, F. Blaudeau, G. Dwyer, R. Lenert, P. Lee, M. Belascasa, G. Weigle, M. Behn.

Taking and developing photographs are the main activities of the photography club. Although the club was formed for pure enjoyment, members also develop photographs for students and teachers for a small charge. The club adviser is Mr. Donald Klein.

Conservation Club: Row 1: L. Vrooman, Susan Edmonds, Marie Shortsleeve, Kit Robinson. Row 2: Tom Weatherby, Mark Friebe, Peter Miller, Jim Murray, Kathy Hoffstetter. Row 3: Advisor Mr. Beebe, Bob Robinson, Peter Tieslink, Steve Morrison, Paul Fries, Lydia Treadway.

The main objective of this year's debate team was to argue constructively on current issues. The team competes with the schools of the suburban council as well as schools throughout the state.

Crafts Club: C. Bonner, T. Balander, C. Brehm, L. Vrooman, L. Harper, B. Hogan, J. Hamm.

Crafts Club is one of the newer clubs of Guilderland. Presently there are fewer than ten members, but the club hopes to expand within the next few years. The main objectives of the crafts club are to learn, create, and enjoy new crafts.

Emergency Team: Kneeling: J. Jund, C. Trager, P. Miller, K. Cleary, P. Dean, L. Carberry. Back: G. Goutos, B. Murphy, M. Hedges, C. Shave, K. Mihalak, G. Coil, B. Smith.

The Emergency Squad did a fine job this year. One purpose of the squad is to organize the students during fire drills, air drills or any emergencies.

Work Experience Education helps to meet the needs of many of our school youth. Work experience is not mere employment of pupils but part-time employment under the supervision of the school with related instruction provided by the school both before and during the period of employment. The students in the program receive credit for the hours put in while working.

SCEPTRE SERVICE

Growing in strength, pride and accomplishment was the original goal of Sceptre Service this past year. We are proud to say we have succeeded with our goal and pray Sceptre continues to grow.

A summary of the organization's accomplishments this year have included Homecoming, the purchasing and dressing of ninety dolls for the needy families during Christmas, a Red Cross bloodmobile sponsored by the club and held at Guilderland High School, many visits to the nursing homes and human shelters, bake sales earning money for the March of Dimes program and the enjoyable donkey basketball game.

We would like to sincerely thank the many faculty members and secretaries for helping us organize and support our functions.

May Sceptre always remain a sincere service organization with confidence and kindness behind everything she sets out to accomplish.

SCEPTRE SERVICE OFFICERS: ROW 1: C. Ryan. ROW 2: N. Gifford, D. Carpenter, S. Gillespie. ROW 3: K. Knapp, B. Mahar.

Welge, M. Montalbano.

Key Club is one of the most active service organizations in this school. We perform many services for our school and our community as well as attending many social activities.

Some school services that Key Club participated in during the past academic year include; assisting the photographer in taking student photographs for the yearbook, collecting food for the needy for Thanksgiving, helping Sceptre Service with the bloodmobile, running concession stands at basketball games, assisting A.F.S. in their annual fund drive, and ushering at various school activities and performances.

We also helped the community this past year. Some of our accomplishments are; redecorating at the Altamont Hostel, serving a spaghetti dinner for the Westmere Elementary School P.T.A., entertaining the elderly at the Eden Park Nursing Home and helping with the Lord's Acre Auction at the Hamilton Union Presbyterian Church.

Some social activities we took part in are; the Key Club Picnic, the Alumni Dinner, a skating party at Voorheesville for all Key Clubs in the area, a basketball tournament at Shaker, the annual trip to New York, the annual Key Club Talent Show held in the Spring, and the Key Club Convention for all Key Clubs in the state which occurred early in April at the Pines Hotel in the Catskills.

We wish to thank our advisor, Mr. Grimsted. He has been the driving force behind the Key Club students and we wish him the best of luck through his entire life.

ROW 1: M. Clark, D. Palmer, D. Canavan. ROW 2: F. Palmaletto.

DRAMA CLUB

The Drama Club students take part in one act plays that are produced in the spring of the school year. They are directed by the theater arts teacher, Mr. Warner. In the past years they have acted many dramatic plays in which people of all ages enjoy.

ROW 1: K. Honnick, W. Meagly, K. MacIntosh, T. Hutson. ROW 2: B. Bishop, D. Carpenter, P. Coogan, S. Grover. ROW 3: R. Rosen, C. Thieson, T. Murphy, N. Gifford, L. DiMura, V. Dine, A. Hein, M. Chamberlin, L. Dagle. ROW 4: S. Curran, C. Oakley.

RUSSIAN CLUB

Russian Club consists of students who are taught the Russian language. This group welcomes exchange students from Moscow in hopes that they may learn more about the Russian people. The club also takes trips to a Russian monastery located in Jordon, New York. At times they have speakers from Russia to talk about the culture of Russia. In general, the students learn about Russian people and their way of life.

JOURNAL

The Journal, Guilderland's finest school newspaper, enjoyed another successful year of publication under the leadership of Tom Looby and the advisor, Mr. Smith. Also contributing to the Journal's production were the students of Mr. Smith's journalism classes.

WRESTLING PEP CLUB

The Wrestling Pep Club is a very fine addition to the wrestling team. Their spirit and enthusiasm helped to bring the wrestlers of Guilderland into many victories.

The girls perform many tasks including working at the table, keeping the books and statistics, making posters, and also running the concession stand between the J.V. and Varsity matches.

ROW 1: S. Towers, S. Hillenback. ROW 2: L. Boynton, S. Gillespie, V. Dine. ROW 3: D. Munn, P. Soule. Missing: L. Harper, Deb Munn.

ROWDIES

THE PERENNIAL SPIRIT CLUB

The Rowdies, an old school organization which has been re-organized this year, has its chief purpose to excite the players and arouse the fans. Their main goal is to lead the Dutchmen onto victory in all the games played. Everyone will agree if they've been to any of the games played, that the Rowdies is a needed and welcome group of kids of Guilderland High.

YEARBOOK

STAFF

Editor-in-Chief: Valerie Dine

The Yearbook Staff started off by going to Syracuse for the Empire State Press Association Awards. We came back with many new ideas to add to our own. With our large staff, we got right to work, and as with every staff, we had our problems. But we've all survived, with the many long and hard hours of work we have put into it.

We would like to give a very warm thank-you to Mrs. Harrington for giving her time, even after she gave up her position as advisor in the middle of the year for various reasons. We started out with her in the beginning and she stuck by us till the end. We would also like to thank Ms. Murphy for taking over such a job at such a difficult time.

We thought the end product would never come, but here it is and it was well worth it.

Mrs. Harrington, Kim and Val take time out to smile.

Marcia's really in love.

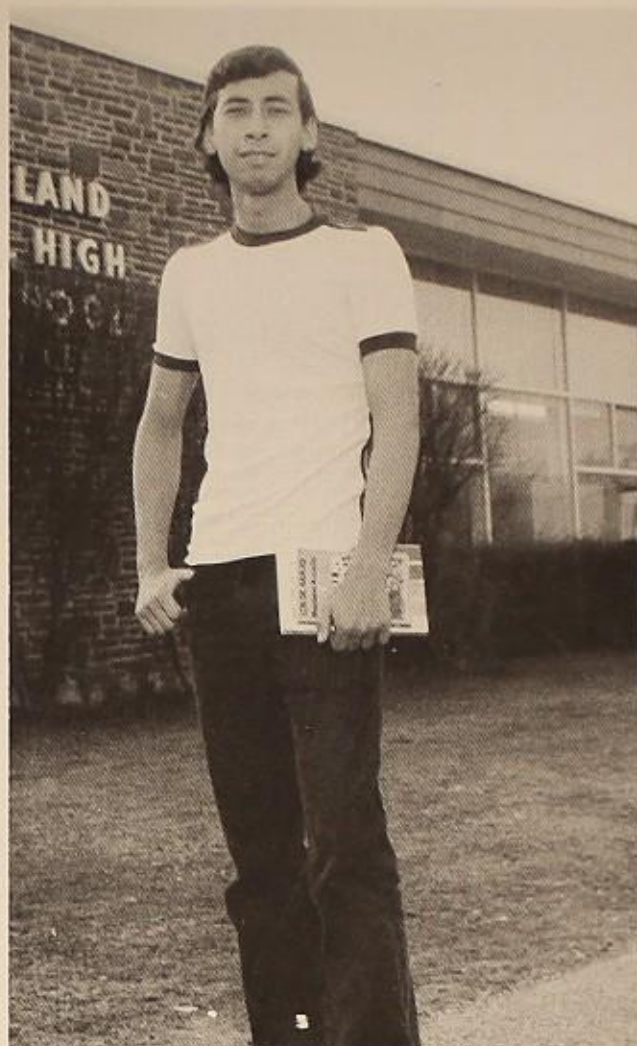

"I told you, Start on your right foot first."

January 24, 1976 was the night of the Bicentennial Ball. Juniors and seniors were gathered at the Italian American Community center for a fine buffet dinner and dance event.

The flowers and decorations were furnished by Gulley Florist from Albany and the dance music was provided by Thick 'n Creamy.

This dance was the first of its kind. Never before has the senior class presented a semi-formal dance during the winter months. Both seniors and juniors all agreed that they had a pleasant evening with their friends on the evening of The Bicentennial Ball.

Carlos Medina

My name is Carlos Medina and I come from Bolivia. Presently I am living with Mr. and Mrs. Cox, and my brother's name is Pat Santillo. I am 17 years old.

I love the school and the people here. There is a difference in the schools here and in Bolivia. The difference is that here the classes are much longer, but in Bolivia the classes are very short and you have about fourteen classes a day. There is also school on Saturday. This is the reason I like school here better than in Bolivia.

The people here are much friendlier than they are in Bolivia. I have learned how to ice skate and ski here and I love to do both. I like the snow here, but it does get cold after a while. In Santa Cruz it is usually about 80-85°F.

I have gone to parties here in Guilderland, and have found them different than the ones at home too. The major difference is that in America you can't drink because no one is of age. In Bolivia everyone can drink.

I like America very much. I will be graduating from Guilderland in June of 1976. I hope to some day return to America, maybe even to go to college here.

Yours,
Carlos

My name is Pedro Miranda. I am an A.F.S. student from Lisbon, Portugal, who came to Guilderland High School on a scholarship program during the '75-'76 school year. I was very happy when I learned I was coming to this school because the references and comments about Guilderland from other A.F.S. students from the years before were great. They were absolutely right about Guilderland.

I had a really nice experience with the Guilderland High School kids and lots of fun in sharing different cultures and styles of life. Everybody has been fantastic to me. I am sure I learned several new aspects about myself and about the American people. This experience has been very positive for me both academically and socially. I always tried to involve myself to my best ability regarding all activities. During the '75-'76 school year I was involved in Key Club, International Club, and the soccer team, which consisted of great kids.

I just want to thank everyone for a wonderful year I had, a year which I will never forget.

Yours,
Pedro

Pedro Miranda

Before leaving, I had been told that the next two months could be the most fantastic experience of my life. Indeed, my summer's stay in Sweden turned out to be no less than just that.

By being submerged in a foreign culture, I was able to learn first-hand about the country and its people. Perhaps more importantly, I could take a close look at myself as a person and as an American.

Scott Rossduetuer

There is one thing I realized after I had come here: Americans are people like other people. For example, I think that the youngsters, whether in the U.S. or Europe, are very much alike; all have the same problems. One of the things which seemed odd to me when I first came here was the attractive cars Americans have. Another example is the boy-girl relationships which are much more open than where I am from. Finally, I found universal the characteristics of some Americans and their inclination towards money. For my part, I am having a lot of fun in the U.S. and I am very thankful for my experience.

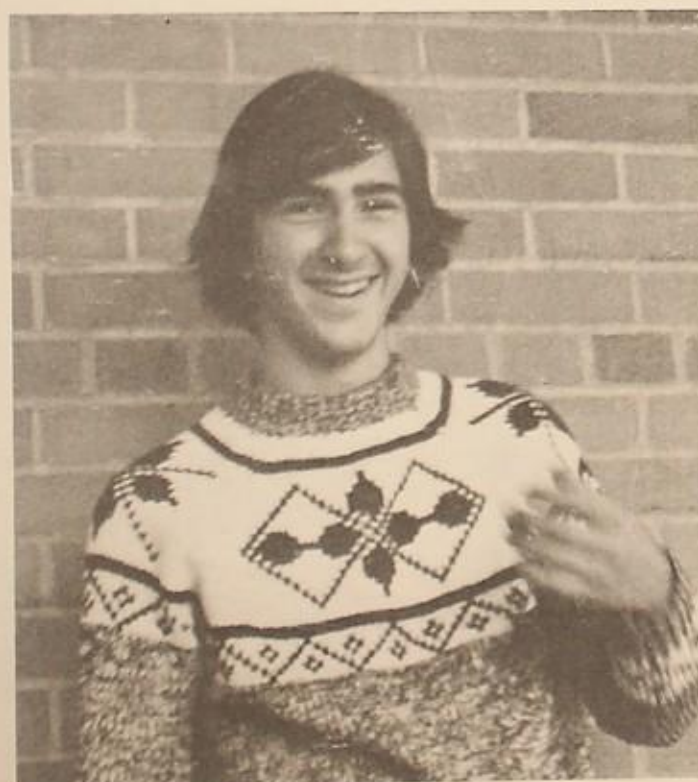

Amish

When people ask me what I did this summer I say: "Oh, I went to Paraguay." "To where?" or "Why would you want to go there?" are two of the most common replies. Granted, not too many people would travel to Paraguay for pleasure, but as an AFS exchange student I was able to both live and learn the ways of the culture.

I could never put a price on the value of my AFS experience because it made me realize how fortunate we, as Americans, are to live as we do.

Ron Amiraian

BOCES

"If I close my eyes, maybe it won't explode."

"Now that we wrecked the engine what do we do?"

"Uh, oh, I think I pulled the wrong wire?"

"Dave Constable monkeys with the fuse box."

"Gee, this is fun!" thinks Lisa Smith.

There are ninety-seven Guilderland students who attend the Occupational Program at the center on Watervliet-Shaker Road. Students go to BOCES for either the morning or afternoon session and then take their academics at their home school.

Enrollment is made up mostly of juniors and seniors. There are five tenth-graders who attend. In addition to the ninety-seven Guilderland students who take part in the program there are fourteen Learning Disability students who attend BOCES.

Most BOCES programs are two year programs. The cosmetology program and the practical nurse program involve two school years and one summer. Other programs offered include auto mechanics, auto body, diesel mechanics, building trades, commercial foods, horticulture, welding, electricity, data processing, graphic communications, health services, machine shop and small engine repair.

AWARDS S S E M B L Y

GRADUATION

Those last parting thoughts.....

"Gee, what did we give you?" asks Mr. Caiccio.

Pete Friedman gives Carol Dunham's salutatorian speech.

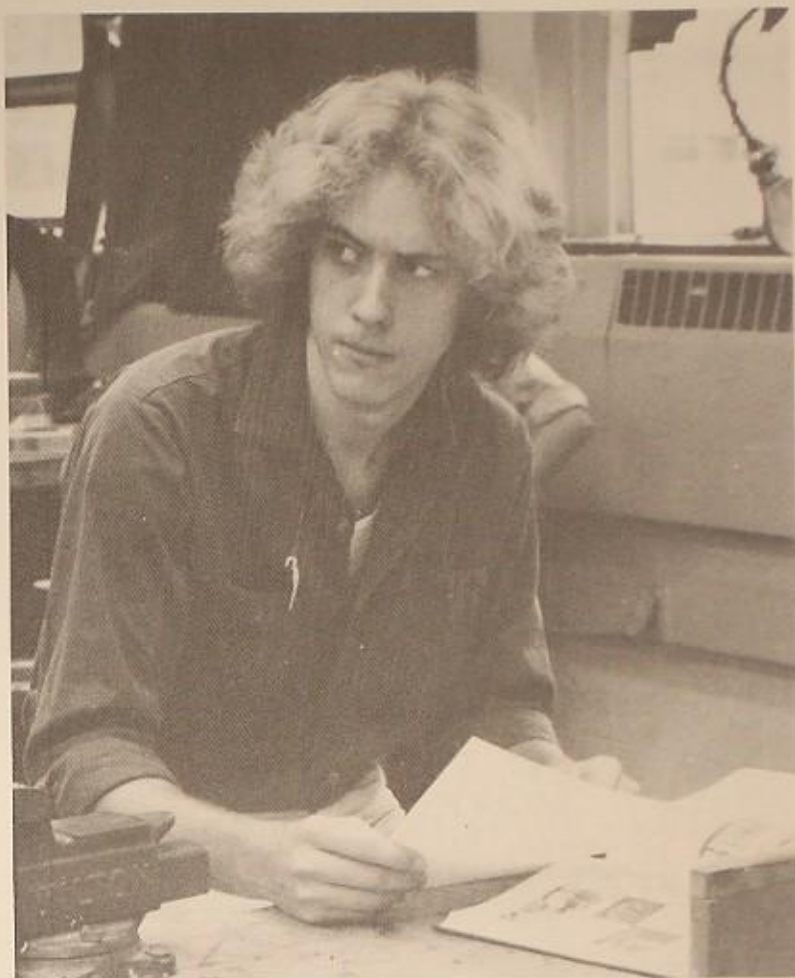

Melissa Jacques exclaims "I told you I would graduate, Mr. Meeusen!"

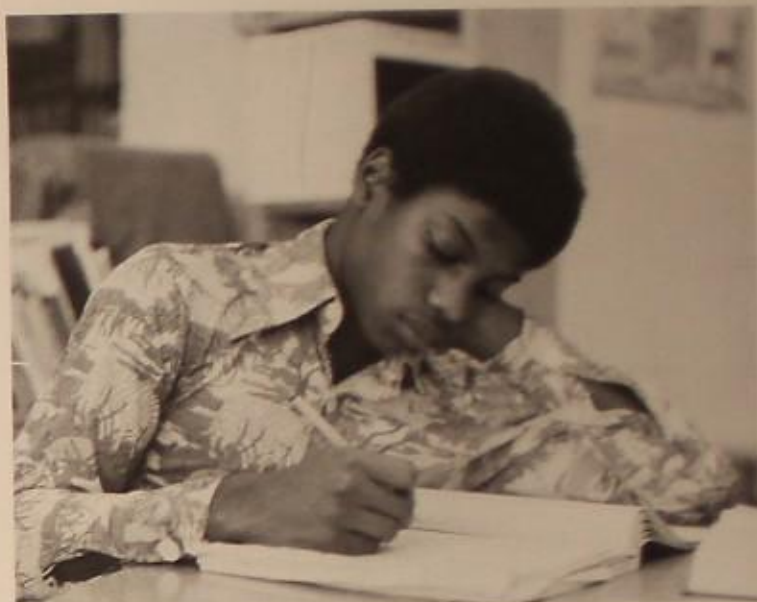

"When I was just a lad..." starts Mr. Meeusen.

"Wow, I finally made it!" thinks Theresa O'Hanlon and Mr. Ryan.

You said it wasn't due until Friday!

Jerald hard at work?

How do you turn it on?

If they could see me now?

It was love at first sight for Stewart and John.

"Where'd the other pie go?!"

"Do you really mean it, Deb?"

"Where did everybody go?"

"My girdle is killing me."

The little hippie is up to something!

See—no chocolate mess!

How about that!

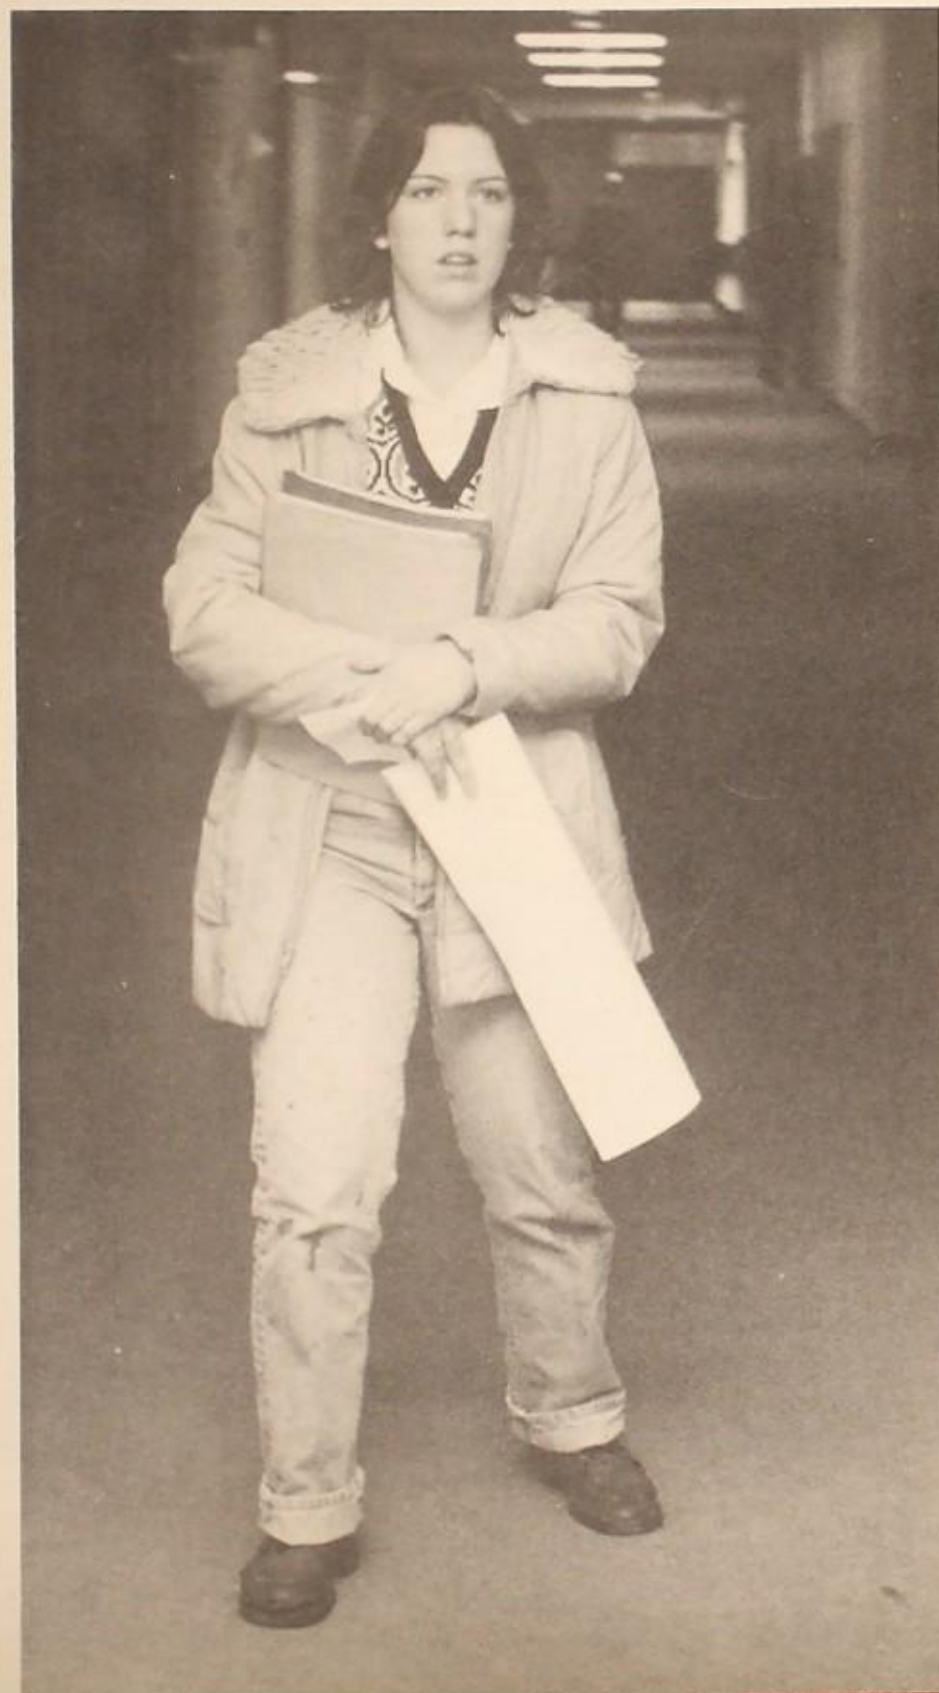

Looks like the devil's in Gimbley.

Ed's up to something!

Do you mean I'm early?

SPORTS

Girls' Tennis

"All right, I'm ready for you."

Linda displays her serving style.

"Wow, did I hit that?" asks Mary.

The 1975 Girls' Tennis Team did a terrific job despite the results of the won-loss record. Individual performances on several occasions were outstanding. Mary Ann Brennan, Linda Dagle, Laurie DeAlleaume and Noreen Ryan, all skilled players, will be returning. Each girl contributed sportsmanship and perseverance—those things that every team should strive for and be proud of.

This year's Long Red Line compiled the most impressive season in the school's history. Individually, this year's team was led by Tri-Captains Glenn Luther, Greg Floyd, and Steve Larson. Greg Floyd, Pat Santillo and Steve Larson smashed the 1971 school course record (held by Rich Hutton). Glenn Luther became the first runner in the history of our school to qualify for the State Cross Country Meet.

ROW 1: Noreen Walsh, Carol Bazan. ROW 2: Michelle Shackett, Maureen Eldridge, Jan Wiebe, Fran O'Connor.

"Hey, who moved the cup?"

"Maybe I shouldn't have stopped after the first lesson."

This year was marked by a solid performance, but yet it was a disappointing season. The Dutchmen started out with a 6-0 record and hoped to go all the way. Guilderland's stunning victory over Shaker (which hadn't lost in 24 matches until Guilderland dominated) made the team overconfident, and they dropped to 10-4-1. The team placed second in the Suburban Council Championship and sixth in the Sectionals.

Guilderland's J.V. Soccer season was a successful one. With a final record of 11-3-2, they took second place in the Suburban Council. Tri-Captains for the team were Jim Roberts, Brian Moxey, and Mark Schaible. Two of the team's star players, Greg Hilt and Eric Laier, were moved up to the Varsity team.

This year's Varsity Booters were led by Tri-Captains Jamie Hilton, Reid Nasholds, and Mike Purcell. The season was a disappointing one for Reid, who was injured the third day of practice, taking him out for the entire season. Senior Brian Hanrahan broke a Suburban Council record when he scored five goals in a single game against Scotia. Jamie Hilton made the Capital and All-Star first string team.

The season was marked by a dedicated team which gave 100 percent, but 'Lady Luck' didn't seem to be with them. The team finished in fourth place in the Suburban Council and tied for fourth over-all in the Sectionals. Their final record was 9-5-2.

"That's my toe you're stepping on!"

With all the fall sports at Guilderland, Varsity Girls' Soccer came up with the best record, 6-1-1. Through long, hard work, the girls came up with the second best record in the Suburban Council. With many underclassmen on the team now, a tremendous season is expected next year.

The Big Red started the year slowly, but finished with four straight wins for a 6-3 season. This year marked the eleventh year in a row of winning football at Guilderland, a Suburban Council tradition that cannot be claimed by any other team in the league.

The team's tri-captains for 1975 were Kurt Schinnerer, Kevin Kenyon, and Tim Dolan. The season's closing found seniors Jeff Kennedy, Kevin Kenyon, and Kurt Schinnerer making several post-season all-star teams.

The girls' varsity volleyball team completed its finest season ever. Under the instruction of a new coach, Ms. Sue Hainey, the girls went undefeated in their first five games. Although the G.C.H.S. girls volleyball team put up an exciting and suspenseful showing against first place Bethlehem, the girls eventually dropped to third place in the suburban council standings. Led by captains Sheila O'Donnell and Linda Dagle, the team shows great promise for future seasons.

This varsity wrestling season was a memorable one, with the Dutchmen finishing with a suburban council record of 8-1-0. The grapplers were tied for a first throughout most of the season until they met with Niskayuna. The loss was disappointing to the team, placing them in second place.

The Dutchmen had a great over-all year, taking first in the Webster-Xerox Invitational Kurt Schinnerer took first and Gary Miltner, Kerry Johnston, Mike Clark, Greg Conway, and Paul Hornbach all took second. Kurt also took second in the varsity tournament.

IN MEMORY

Ron Debenedetti

Ron Debenedetti was a three-sport standout in football, wrestling and track while at Guilderland. His first love however, was football, and his achievements were many.

In 1967, as a junior, Ron scored 7 touchdowns and 11 extra points. His feats earned him a selection to All-Metro first team backfield, and his teammates choose him as Guilderland's Most Valuable Player.

As a senior co-captain, in 1968, Ron scored 14 touchdowns and 14 extra points which ranked him number one scorer in the capital district. Ron's two year total of 151 points is a record at Guilderland. He was again named to the All-Metro starting backfield and was the number one player in Metroland. He received High School All-American mention and the Thom McCann Student Athlete trophy. He is the only player at Guilderland to be voted Most Valuable Player two years in a row.

Ron went on to Wesley Junior College on a scholarship, where he was tenth leading rusher in the country in his second year. This accomplishment earned him a full scholarship to Major College Football at Wake Forest.

Ron died of injuries sustained in an automobile accident in July. His death stunned the sports community and all who knew him.

This is the poem that was read over the loudspeaker the day following the accident.

June 1st, 1975

What do you say when a friend dies?
Someone you love with all your heart.
You cry until you can't cry anymore.
You pray and ask God "Why?" "Why, him?"
You wish it was all a dream, and you would wake up and he would be there
smiling as he always would and when it finally hits you, what do you do but
cry some more?

Dear John,
We love you and always will. Wherever you are,
we hope that you know that. You were so young.
You never really got a chance to live. You loved

Dear John,
We love you and always will. Wherever you are, we hope that you know
that. You were so young. You never really got a chance to live. You loved
life and it seems so unfair it was taken from you. We would all give our lives
if you could live again. We feel so helpless that we cannot bring you back.
We will try to accept it but it will be hard. John, we will always remember
you because in our hearts you are not really dead.

Love,
All your friends

John Schmiedel

"We gotcha"

Strange, thinks Kim.

"Give me a little kiss..."

Whose locker is Dave in, this time?

Thanks for the memories...
The halls that were once full
the gym and the football field
that were once packed with "Rowdies"
Are now empty, silent and still,
But the memories I have
I'll always treasure
'Cause it's the little things in life
that make me want to live—
To live and remember.

A gift for this year's graduates ... free checking account service

You want to be sure you manage your money wisely, right?
Of course.

So our graduation gift of free checking account service for one year will help you do that.

"How?" you say.

Glad you asked.

When you pay by check your quarterly statement will show what you've spent and where the money went.

And more.

Those cancelled checks will be proof you paid.
